EFFORT TO AVERT WAR

United States Expresses Interest in South American Republics.

WITH A WORD OF CAUTION

Venezuela and Colombia Are Both Said to Have Sent Friendly Replies to the Message.

Washington, Sept. 3.—It is ascertained that on August 24, during Secretary Hay's recent visit to Washington, a cryptic message was sent to the ministers at Caracas and Bogota, directing them to inform the foreign secretaries of Venezuela and Colombia of the distress with which the president had heard of the likelihood of a rupture of the relations between these two republics. Adverting to the friendly influence of the United States being exerted to compose pending questions, the ministers were directed to say that, while the relations of this government with these nations are equally intimate and cordial and every opportunity is taken to show the good will we bear them, the president's kindly offer to arrange any differences which might arise between Colombia and Venezuela would be ineffective without the support of the sentiments which are held by all the governments of the Western republics, the United States sincerely deplore a breach of the friendly relations that at this time exist between the sister nations of the western world, and would especially regret any action by either of them which might menace the security of transit across the isthmus or the neutrality of its territory and thereby constrain the government of the United States to consider its responsibilities and functions under existing treaty engagements with Colombia.

The text of Mr. Hay's telegram has not been made public. It is understood that an acknowledgement of its receipt has been made by the Venezuelan government but its purport has not been made known, although it is said to be friendly in tone and, while charging invasion by Colombian forces on the Venezuelan border and referring to the temporary suspension of diplomatic intercourse which has occurred, the way appears to be open for explanations. Venezuela has not declared war against Colombia.

Colombia, also, it is said tonight, has made response to the note of Secretary Hay. While its contents are not obtainable, the statement is made that it is conciliatory in character and expresses an earnest wish that war with Venezuela may be avoided. Such a result, it is said, would be a cause of genuine regret to the people of Colombia.

SOME BEAUTIFUL WORK DONE ON THE SHAMROCK

New York, Sept. 3.—With her owner, captain, manager and sailing master on board, the Shamrock II. sailed a preliminary race today off Sandy Hook and the Highlands of Navesink. At times there was not more than a breath of air at no time did the boat act sluggishly. She slipped through the water at an amazingly fine rate of speed under the influence of her great mainsail and little sails. The water was smooth, but even when it blew to a speed of nine knots she made a small wave at the bow and left an absolutely clean wake.

Sir Thomas Lipton and party arrived in New York from Newport at 11:15 this morning. The crew of the boat turned to early in the morning and began bending another mainsail for that had been used on the trial on Monday. It is that yacht's trials on the course which Sir Thomas declared to be better one than that used here last week. The sail was bent at 11:30. It is unquestionably a finer made and splendidly set upon deck. It was 2 p. m. when Captain Hogg had slipped her mooring and filed on the starboard tack.

In passing the point of the Hook the Shamrock stepped off at an eight-knot clip at once working her out to Sandy Hook against the tide under her lee. Three tugs brought her to the entrance of the channel and it took her only five minutes to sail its full length, a distance of eight miles. Going about to the Port tack, after clearing the channel, Captain Sycamore, kept the yacht going in the light breeze down the Jersey coast.

Off Seabright she was put about and a series of sail drills began. Seven men climbed out on the bowsprit, while twelve manned the balloon jib topsail halyards.

The small jib topsail came down and was flewed on the bowsprit in about 40 seconds. The next moment the balloonet in stops was being passed out and snapped on the stay so that in less than four minutes after the orders were given the sail was set and its sheet trimmed down. Later the stay sail and jib were taken in to allow the balloonet to draw, and at the same time the yacht was kept off for home. Under this sail she was doing about seven knots in the smooth water. The breeze was not over five knots in strength.

At 3:50 Captain Sycamore eybed her to starboard, the balloonet came tumbling down on the bowsprit to be caught by seven pairs of hands and passed in board in a jiffy. In a few moments a larger balloonet was sent up in stops and broken out. It was a beauty. Suddenly 16 men grabbed the after-end of the spinnaker boom and ran forward with it, while others hoisted the sail up to the masthead from the fore hatch. In just three and one-half minutes from the time the order was given the beautiful sail was set.

JUNCTION AGAINST DELMAR JOCKEY CLUB

St. Louis, Mo., Sept. 3.—In the circuit court today Judge Zachritz granted the petition of Attorney General Crow, and issued a temporary injunction against the Delmar Jockey club, preventing the selling, pool selling and betting on races at Delmar track. It was served in the hands of Sheriff Dickman today. Judge Zachritz made no ruling on the demurrer filed by the Delmar Jockey club and argued before him last week. The granting of the temporary injunction, is, however, equivalent to overruling the demurrer. The injunction will remain in force until the final hearing of the case, which will probably be at the October term of the court. The Delmar Jockey club had intended to operate its track until September 28.

Sheriff Dickman executed the order of the court at 3:30 o'clock. At the conclusion of the second race the bookmakers were summoned individually to the secretary's office where each was served with a copy of Judge Zachritz's order. After service was made the bookies continued to receive bets. The Delmar officials seemed to be pleased at the court's action.

WAINMAKERS ARE NOW ON STRIKE

Pittsburg, Pa., Sept. 3.—A new strike is on. It is that of the chain makers, ordered to go to work today and it is said to be widespread. The demand an increase of wage. The scale asked for in the Pittsburg district is 22 per cent, and in the Ohio district asked runs all the way from [illegible] per cent. No answer has been made. The strike was started by the Chain Makers of the United States.

[illegible] weeks of the Pittsburg Chain company [illegible] today. The plant has worked day and night, running 16 hours each turn. At the offices of the company the strike was termed a "flurry," and it was predicted that the men would come to work in a few days. Moreover it was said that a number of new men had been secured to take the place of the men. The chain makers at Rankin did not go out today. The movement had been expected and the remainder of the works are running as usual. The officials say that the chain making department can be started in a few days. They offered a scale of wages entailing an advance of 25 per cent. The shops are running with a reduced force.

RIFLE SHOOTING.

New York, Sept. 3.—The rifle shooters representing the National Guard of the District of Columbia are running with the team matches at Sea Girt, N. J. rifle range so far. Today added two more victories to their list by winning the interstate regimental and company matches. In the regimental match they were closely followed by the team from the Thirteenth Canadian infantry, and the Twelfth regiment of New York. Each of these teams had a total of 540, but the Canadians having made the better score at the larger range, held second place.

The Canadians' score at the 550-yard range gave evidence of extraordinary marksmanship. Private Skedden made a "possible" and was closely followed by Major Wilson and Lieutenant Ross, each of whom scored 49.

In the company team match there were 11 entries. The first team of Company A, Sixth battalion of the District of Columbia won this event with the score of 208. B battery of Boston was next with 291 and the first city troop of Philadelphia was third with a total of 285.

INTERNATIONAL TENNIS.

Niagara on the Lake, Ont., Sept. 3.—The international tennis tournament was finished here today. E. R. Patterson of Toronto, winning the finals in the handicap from H. H. Hackett of New York.

KATOLL AGAIN FREE

Chicago, Sept. 3.—President Johnson of the American league today lifted the suspension from Jack Katoll, pitcher for the White Stockings. Katoll had been suspended during the Shugart-Haskell trouble at Washington, for hitting Umpire Haskell with the ball.

THE CONSTITUTION IS BEING REVISED

Newport, R. I., Sept. 3.—The cup challenger question of the New York Yacht club, decided not to bend the Constitution and the Columbia to race today as had been originally intended. There were two reasons, the first being the probability of a day without any wind, the second, that Mr. Duncan wished to overhaul the Constitution thoroughly before sending her to the line again.

So surprised are all connected with the Constitution at the unsatisfactory showing she has been making since she was hauled out for cleaning at Bristol, that a diver was engaged today to examine her bottom for obstructions to her speed. He spent a couple of hours under water and reported that he could discover nothing amiss. Nat Herreshoff spent several hours aboard the Constitution altering her trim. The new mainsail, which was bent at Bristol when the boat was overhauled for these trial races, was unbent and the old mainsail which she carried when she first came out was substituted.

The cup committee does not wish to select the defender in a hurry. It wishes to have the question of superiority settled definitely. Therefore, a race every day this week will in all probability be sailed.

FRESH SUCCESS OF CHINESE DIPLOMACY

The Orientals Are Conceded to Have Outwitted Germans.

MISSION OF CHUN

An Unwelcome Envoy Who Has Had Matters All His Own Way Regarding the Performance of His Errand.

Berlin, Sept. 3.—It is generally conceded here that the settlement of the Chun difficulty marks another success for Chinese diplomacy. A semi-official intimation has been conveyed to the press that the government waived the petition for forgiveness owing to a desire not to place China in the attitude of having countenanced assassination. Stress is now laid upon the address which Prince Chun will read to Emperor William. Nevertheless the expiatory mission has become shorn of all semblance of a national spectacle illustrating German national supremacy and has dwindled down to a private reception of a rather unwelcome envoy who has had matters all his own way regarding the performance of his errand.

As a matter of fact the government now seems anxious to get rid as quickly as possible of the expiatory incubus and the probabilities are that the mission will leave Berlin soon after the audience.

The first flush of satisfaction at being rescued from an awkward position having passed, the press and public now vent their spleen upon Count von Buelow, who has really saved the government from an absolute fiasco. The pangerman papers are particularly bitter. They deride the imperial chancellor with a lack of stamina and refer to the incident as "the greatest snub since Olmutz."

"In official circles," says the Berliner Tageblatt, "there exists a feeling that it would be an error to insist that Prince Chun beg pardon for the murder of Baron von Ketteler inasmuch as the German government never took the position that Emperor Kwang Su was responsible for it."

The Boersen Courier says it learns that Count von Buelow dissuaded the kaiser from insisting upon the ceremony of prostration, arguing that "mere externalities were worthless."

General Palmer's Gift to the Boers

Before Commandant W. D. Snyman, of the Boer army, began his lecture at the Antlers hotel last evening he was given a check for $500 by General William J. Palmer for the fund the veteran is raising for the widows and orphans of Boer soldiers. No announcement was made of the gift but the news soon became known among the guests of the hotel.

Commandant Snyman's lecture was in the hotel parlors and was listened to by nearly 200 persons. He told of the struggle of the Boers and of their present sad straits. He pictured the condition of the families who have now no one to help them and his appeal for aid brought a generous response from the guests of the hotel.

COLUMBUS A WINNER IN DENVER'S HORSE SHOW

Denver, Sept. 3.—Denver's third annual horse show began tonight with a parade of the Gentlemen's Riding and Driving club, in which between two hundred and three hundred drivers were in line. The grand stands at Denver Athletic club were filled with the society people of Denver and other Colorado cities when formal opening of the show took place. The show will last four days.

More than 600 horses have been entered in the various classes. The judges are George B. Hulme of New York, C. E. Quinton of Trenton, John T. Gentry of St. Louis, A. C. Pratt of Little Rock, W. V. Galbraith of Fort Worth, George D. Rainsford of Diamond, Wyo.

The following prizes were awarded tonight:

Driving pony—First, A. E. Ashbrook, Kansas City; second, Edna C. Kelly, Denver; third, L. Harty, Denver.

Best turnout—First, William E. Hughes, Denver; second, Williams & Guggenheim, Denver; third, A. E. Ashbrook, Kansas City.

Gaited saddle horse—First, Thornton's Star, J. A. Potts, Mexico, Mo.; second, Forest King, D. L. Parrish, St. Louis; third, Limestone Belle, O. D. Woodward, Kansas City.

Four-in-hand — First, John W. Springer, Denver; second, W. E. Hughes, Denver; third, A. E. Ashbrook, Kansas City.

Tandem—First, Ashbrook & Hornbeck, Kansas City; second, Dr. Sherman Williams, Denver; third, W. E. Hughes, Denver.

High school—First, Columbus, George Bernard, Colorado Springs; second, Limestone Belle, O. D. Woodward, Kansas City.

CHARGES AGAINST JUDGE OF HAWAII CIRCUIT COURT

Washington, Sept. 3. Abram S. Humphreys, judge of the circuit court of the First judicial circuit, territory of Hawaii, who is under charges by members of the bar association of the Hawaii islands, who ask for his removal, and F. W. Yankee, who represents the bar association in the controversy, held a conference with Attorney General Knox today lasting several hours.

The substance of the charges is that Judge Humphreys controls and is actively interested in a partisan newspaper while exercising the powers and performing the duties of circuit judge, that he takes active part in bitter political controversies; that he uses his powers as judge to promote his own personal and political ends; that he is harsh, tyrannical and vindictive toward members of the bar and others, and that he has held in disregard the obligations devolving upon him as judge and has brought the same into public disrepute and under suspicion.

In his reply Judge Humphreys says that he owns a controlling interest in the Honolulu Republican but upon receipt of his commission as judge he severed all connection with the editorial policy or utterances of the paper. He says that he has taken a deep interest in politics but denies that he has ever been perniciously active or has taken any part in politics unworthy of his position on the bench. He also denies that he has made any improper use of the powers vested in him as judge or that he has been harsh or tyrannical in his treatment of attorneys practising before him or that he has held in disregard the obligations devolving upon him as judge.

The charges and specifications in printed form occupy 296 pages and the judge's reply 55 pages.

At the conclusion of the conference Attorney General Knox said he would give the matter prompt attention and likely present his conclusion to the president.

PROMINENT WOMEN KILLED IN WISCONSIN

Milwaukee, Sept. 3.—Mrs. S. S. Barney of West Bend, wife of Congressman S. S. Barney of the fifth district, and Mrs. S. W. Ramsay, Sr., of Port Washington, wife of a former state bank comptroller, were killed by a Northwestern train this afternoon near the Port Washington station. The women were riding across the track and the train struck them.

For over two hours the remains lay at the station at Port Washington, no one being able to identify them. After many had viewed the remains, W. H. Ramsay, Jr., was asked to see if he could recognize the bodies. Mr. Ramsay picked up the covering upon the body of Mrs. Barney, but the remains were so terribly mangled that he could not make out the features. He then lifted the cover from the other body and fell back trembling, with blanched face. He had looked upon the face of his mother.

Congressman Barney was trying a case in court at the time. He was overcome by the shock and court adjourned.

ALL THE NEWS

Showers today and cooler in western portions; generally fair tomorrow.

Silver, 66c; lead, $4.375; copper, $18.50.

New York stocks weak; Denver and Rio Grande issues showed extraordinary strength; money on call steady at 3@4.

Chicago grain dull and lower; provisions a shade easier.

LOCAL

Owing to absence of a quorum the meeting of the citizens' committee on the water question was postponed until Thursday night.

Election to vote on school bonds is postponed until October 1.

Storm yesterday did much damage in Manitou and west Colorado City.

A stock company may purchase the Iron Springs hotel, enlarge it and keep it open the year round.

Royal Neighbors will give an entertainment at Woodmen hall this evening.

Jones & Wellington pleaded guilty to having liquor too close to the soda fountain and were fined $50 and costs.

The courts opened for the September term yesterday with exceptionally large dockets.

GENERAL

A railroad deal that may mean the Atchison, Topeka and Santa Fe's entry to St. Louis is said to be under consideration.

MINING

The market yesterday showed decided strength in the morning, but some reactions in the afternoon. El Paso and Bob Lee were the exceptions, the former selling at 53¾ and the latter at 6¼. Isabella weakened to 54, and Gold Dollar closed at 21¾.

There is a grave possibility that the Doctor-Jack Pot company cannot afford to pay the monthly dividend of $20,000. The exact production and the state of the treasury is not given out for publication as it was when the mine was flowing well.

The directors of the Elkton Consolidated company met yesterday and declared a dividend at the rate of three cents a share, amounting to $75,000. The mine is in a most prosperous condition and the water is gradually subsiding.

It is reported that a shoot in the Hoosier mine has been followed to the Bob Lee mine and that a consolidation now can be effected on a satisfactory basis. The company is also said to be doing well in the 700-foot level.

Dr. E. E. Rittenhouse returned from camp yesterday and reports a decided improvement in the amount of leasing, especially on the north slope of Bull hill.

THE SANTA FE MAY ENTER ST. LOUIS

Kansas City, Sept. 3.—A railroad deal that may mean the Atchison, Topeka & Santa Fe's entry to St. Louis is said to be under consideration. Since the promoters of the St. Louis, Kansas City and Colorado railway now building west from St. Louis announced that Clinton, Mo., is to be the line's destination, there have been rumors that the company will buy or has already arranged for the purchase of the old Blair line from Kansas City to Clinton. This road is one of the two now owned by the Frisco system that parallel each other from Kansas City to Clinton. They are so close together that one company can hardly use both. St. Louis, Kansas & Colorado used to be a Santa Fe property but the construction of the present extension west to Clinton is in the hands of a company in which John Scully and David R. Francis of St. Louis are the moving spirits. Whether it is a Santa Fe property yet and will make a Santa Fe connection for St. Louis in time for the world's fair is a matter about which there is no end of speculation.

MINERS AT OPHIR MOBBED A TEACHER

Special to the Gazette.

Telluride, Sept. 3.—At Ophir, yesterday evening, a mob of between 25 and 30 men visited the residence of F. H. Wogan, the teacher engaged by the board of directors of that district, and with threats demanded that he sign a resignation as teacher in five minutes and leave the town.

He refused to comply unless some member of the board was present. Dr. Compton was summoned, and after sizing up the situation advised that he sign the resignation, which he did. So it is reported that the mob was composed of members of the Ophir miners union, to whom Wogan was obnoxious by reason of his having worked for the Smuggler-Union at the time of the labor troubles in that mine. He had been engaged to teach for nine months and yesterday was the opening day of the term.

MISS MORGAN'S SUCCESS IN COLORADO HUNTING

Special to the Gazette.

Glenwood Springs, Sept. 3.—Prof. Osborne and party, including the Osborne family and Miss Annie Morgan, daughter of J. P. Morgan, returned to Glenwood today from a three weeks' hunting trip in the White river country. They are all delighted with the trip and all were very successful in their search for game. As an evidence of Miss Morgan's skill with the rifle the young lady brought in the heads of two deer the victims of her accurate aim. One of these heads is a very large one and is pronounced by the taxidermist the finest specimen brought in this season.

Professor Osborne, who is an experienced hunter, having spent many seasons in the Adirondacks, is very much incensed at the ruthless slaughter of game. Many evidences of which he has witnessed on this trip. The party left for the east this evening by special car over the Rio Grande.

FIRST STAKE AT THE ST. LOUIS EXPOSITION

St. Louis, Mo., Sept. 3.—Just four months from the date of organization of the Exposition company, the first stake of the World's fair to be held in this city in 1903 to celebrate the 100th anniversary of the Louisiana purchase was driven today on the site at Forest park. Park officers and directors of the Louisiana Purchase Exposition company, municipal officials and others assembled this forenoon on the site near the structural center of the grounds and there the stake was driven by William H. Thompson, president of the National Bank of Commerce, in his official capacity as chairman of the committee on ceremonies and buildings.

President David R. Francis of the Louisiana Purchase Exposition company, A. P. Walbridge, ex-mayor of St. Louis and others made addresses. At the conclusion of the ceremonies the stake, which had been specially prepared for the occasion, with withdrawn for preservation and a stake ordinarily used by surveyors substituted for it.

According to the plans adopted by the commission of architects, the principal buildings—agricultural, mines and minerals, fisheries, transportation and fine arts will be built on foundation lines radiating from the point where the first stake was driven.

PACKERS WILL REFUSE BUTCHERS' REQUEST

Omaha, Sept. 3. The packers of South Omaha have not had a conference regarding the demand of the Amalgamated Meat Cutters for an increase of pay, but individual packers say they will not grant the demands of the men. One of the packers said the men were now receiving $4 and $4.50 per day and getting steady employment and that their demand was excessive. Tonight was the time set by the cutters for an answer. When the scale was presented to the packers they were requested and not demanded to sign it. For this reason the packers believe that no strike will come. The heads of the local unions had nothing to give out on the situation as they are not expecting a definite answer for a few days. The beef butchers were at work all day. About 1,500 skilled and unskilled men are involved.

A NEW GUSHER

Guthrie, O. T., Sept. 3.—At Granite, O. T., this afternoon a gusher of oil was struck at a depth of 300 feet. The flow is very heavy and has created great excitement.

A SUPERINTENDENT OF MAIL CONTRACTS

Omaha, Sept. 3.—The management of the Union and Southern Pacific roads has created the office of superintendent of mail contracts and it is understood that Herbert P. Thrall, now superintendent of the eighth division of the railway mail service is to be appointed to the position, retaining also his position with the government. The duties of the office will include designing, building and fitting up of mail cars and superintending the weighing of the mails.

An expert in mail handling is required for the office, who has an intimate knowledge of the vast details connected with the postal requirements on the various lines of railroad as well as being able to conduct negotiations with the government, and Mr. Thrall has been selected because of his varied experience in the mail service.

MISSOURIANS WALKED OUT.

Northport, Wash., Sept. 3.—Forty-five of the 62 Missourians brought here yesterday to take the place of strikers at the Lerol smelter walked out today, asserting that conditions had been misrepresented to them. Sheriff Ledgerwood went to the smelter this morning and arrested Deputy United States Marshal Guiton, on a charge of pointing a gun at one of the strikers yesterday when the Missouri men were being taken there. Guiton waived examination and was released on $3,000 bonds.

BRITISH COMMISSION ON TUBERCULOSIS

London, Sept. 3.—King Edward has appointed a committee to investigate Prof. Koch's tuberculosis theory. The scope of the inquiry is officially said to be whether animal and human tuberculosis are identical, whether animals and humans can be reciprocally infected and under what conditions, if at all, transmission to man occurs and the means of combating it. The commissioners are Sir Michael Foster, a secretary of the Royal society; Dr. Sims Woodhead, president of pathology, Cambridge university; Dr. Harris Cox Martin, Prof. J. McFadyean and Prof. R. W. Boyce. The commission has been granted the fullest powers and facilities to make a prompt report.

MISSIONARY BOARD DENIES REPORTS

Boston, Sept. 3.—The officials of the American Board of Foreign Missions have found it necessary to issue a denial of the reports that the board has decided to undertake missionary work in the Philippine islands. The only basis for such reports is said to be that a tentative proposition has been made by representatives of work in the Philippines by some of the different missionary organizations in this country that the American board should initiate work in the Philippines, but no decision has been reached and no one has been invited or delegated to investigate and report.

SUNDAY IN DENVER.

$2.00 for the round trip via Colorado and Southern. Trains leave at 4:40 a. m., 5:50 a. m., 7:25 a. m., 10:25 a. m., 11:50 a. m., 3:40 p. m. and 6:20 p. m. via Palmer Lake, and at 7 a. m. via Fitzsimons. Office 14 N. Tejon St.

COLOSSAL WAGER ON COMING YACHT RACE

Pittsburg, Sept. 3.—The $400,000 wager on the international yacht race was completed here today.

Both Mr. Mustin and Mr. Kingsley, representing the principals, arrived here this morning, Mr. Mustin coming from Asbury Park and Mr. Kingsley from New York. Mr. Mustin promptly put Mr. Kingsley in communication with his principals who were specially convinced that the $150,000 of British money was awaiting their convenience. Mr. Kingsley on his part agreed to accept a certified check for the full amount of the American side of the wager.

As the name of Darr, Moore & Bryden has been used repeatedly without warrant in the press of the country as the probable stakeholder, a conference was held in the office of that firm. The partners went into the matter and decided that as theirs was an investment business and stakeholding not in their line, they must decline to hold the stakes. They did, however, suggest the name of a citizen, prominent in financial circles and who is known as far as London, as a possible stakeholder. This gentleman when approached consented to become stakeholder upon the express condition that his name should be withheld from the public, as he does not care to share in the publicity now enjoyed by those Pittsburgers who crossed in the Deutschland. Bank notes and check were carefully examined and pronounced satisfactory and Mr. Kingsley's credentials were examined with the same result. The stake is to be paid within one week after the concluding race, the place of meeting to be New York. The wager is simply $150,000 to $250,000 that the Shamrock lifts the cup. There are no conditions as to accident.

Both Mr. Mustin and Mr. Kingsley, the brokers for their respective syndicates, will receive handsome commissions. Mr. Kingsley is to get 5 per cent. of the whole amount in case the Shamrock wins and 2½ per cent. of $150,000 in the event of her losing.

Mr. Mustin's compensation for his share in the arrangement of the bet is 5 per cent. of $250,000, which was paid to him as soon as the wager was consummated this afternoon. The name of the stakeholder is the one closely guarded secret in the bet. The names of the men composing the syndicate are also kept from the public.

"They are all well-known Pittsburg gentlemen," said Mr. Mustin, "but for obvious reasons their names are being withheld. They are backing the American boat because they anticipate another victory for the Yankee skippers and look upon the matter with the eye of business men. However, if the Englishmen should take the cup away they would not turn a hair. They have the spirit of true sportsmen every one of them, and if their quarter of a million should be taken they would be the first to say, 'Bully for Lipton.' I have only acted as the broker in arranging the bet and now my work is finished. It came to me in quite the same manner as any other brokerage business and I regret the notoriety it has given me."

It was reported that M. K. McMullin, a well-known Fourth avenue broker, had been selected as the stakeholder. When asked about the matter tonight Mr. McMullin disclaimed all knowledge of the bet and the yacht race. A flood of telegrams and cablegrams from all parts of the world arrived at the Hotel Schenley for Mr. Kingsley yesterday inquiring about the bet. In some quarters the bet has been denounced but little attention was paid to messages of this character.

New York, Sept. 3. K. Montgomery Smart of the Produce exchange received a dispatch this afternoon from J. H. Kingsley, agent of the English syndicate who placed $150,000 on Shamrock at Pittsburg today, saying he is ready with $150,000 at the same odds, or half that sum. Mr. Smart immediately communicated with the Broadway broker who arranged the former wager and has since put up $10,000 against $8,000 that the Shamrock will not lift the cup.

STEEL MANUFACTURERS MADE DECIDED GAINS

Pittsburg, Pa., Sept. 3.—Developments today in the steel strike show decided gains of the manufacturers. The accession of 32 skilled men to the Star plant, the increased production at the Painter and the Lindsay-McCutcheon mills, and the defection from the strikers' ranks of 75 machinists and pipe cutters at the Continental Tube works and 50 at the Pennsylvania Tube works, the importation of 12 men to the Monessen steel hoop mill and the installation of three mills on the night turn at the Clark mill, all point to an early resumption all along the line as viewed by the steel officials. The Amalgamated officials, however, make the assertions that everything is progressing satisfactorily and say that much of the supposed advantage of the manufacturers is bluff and cannot be made good. As an instance, they cite the Lindsay-McCutcheon plant, where the company says it has as many men at work as it can accommodate. The Amalgamated people declare that James Hurley, vice president of the first district, visited the Lindsay-McCutcheon mill today in the guise of a roller seeking work. He made an inspection of the mill and according to his report there are 30 men at work, six of whom are skilled. The strikers also assert that at the Monessen plant the product turned out last week amounted to 250,000 pounds, while before the strike the daily output was 100,000 pounds.

Matters at McKeesport are quiet and to all appearances unchanged. Strikers point to the fact that the machinists who were persuaded yesterday to leave the National Tube works did not go in today. The much-talked-of start of the Demmler plant is still being discussed and the attempt to start is now scheduled for the latter part of the week. The management says that the only thing holding them back is adequate protection for the workers, a full complement of whom they say are ready to go in.

Mayor Black is still holding back his final answer to the request for police protection. It was reported this afternoon the strikers at Duquesne intend to make another effort to close that plant by getting the open hearth men out, but nothing definite on the subject can be learned.

At Wheeling the strikers are holding their own and there is no indication of an attempt to start any of the shut-down plants.

The report from Canal Dover is to the effect that although District Manager Cline promised yesterday that four mills would be fired up this morning, only one mill, a small 34-inch sheet mill, was fired. Strikers say this was caused by the desertion of nine of the non-union men who returned to Vandergrift from which place they came last Sunday. Manager Cline would make no statement except to deny that there were any desertions and to say that the situation was unchanged.

Officials here, where in Pittsburg do not believe that there will be any investigation of the charges made by Mr. Hickey at Milwaukee. Secretary Williams said today that if a committee should come here for the purpose it would not be received by the Amalagamated officials.

President Shaffer it is said today received many indorsements of his course and encouragement to remain firm. The president himself is confident and professes to be entirely satisfied with the progress of the strike. The tin mill workers of Sharon today forwarded to Amalgamated headquarters $800 for the strike fund.

Mayor Black tonight issued a proclamation to the workingmen of McKeesport." He says:

"The eyes of the country are on McKeesport.

"I have maintained all along that there would be no disorder and still have confidence in the workingmen. Use no undue zeal in keeping men out of the Demmler mill, for I have heard it will be started this week. The venal eastern press has exaggerated and distorted every trifling occurrence here into riot and injured the town. Any violence would be the signal for the application of the infamous principle of government by injunction, and would divorce the support of loyal laboring men outside of the Amalgamated association. Violence never won a strike. No right can be gained by law breaking. I feel no uneasiness but issue this proclamation to keep you cool headed. Use all precaution possible to prevent the order that the hot-headed element may there be one may be easily controlled.

"With the election of President Shaffer."

A Wellsville dispatch says:

"Harry Phillips, a non-union man, was brutally assaulted on the streets of Wellsville today by John Elliott, a striker from Irondale. Phillips is badly injured and was unconscious for some time. Elliott has so far eluded arrest."

A movement which may be of considerable moment in the strike came to light tonight. Letters from influential tin plate workers of Joliet have been received by leading tin plate strikers at the Demmler and Star plants urging them to break away from the Amalgamated association and join the Tin Plate Workers' International association, which includes practically all the men who work in tin houses or finishing repartments of tin plate plants. It is argued that this would put the tin plate workers in position to ask for a scale next year, whereas, if they remain with the Amalgamated association and the strike should be lost they would be compelled to go back to work individually.

A canvass of the Demmler men has been made and it is said 90 per cent. of them are in favor of returning to work at once. The sentiment is reported even stronger at Joliet where the men have had work but two months in the last 12.

SAUCE FOR THE GANDER

London, Sept. 3.—"De Wet has issued a proclamation," says a dispatch to the Daily Mail from Cape Town, "that he will shoot all British troops found in Orange River colony after September 15."

SHIP-WORKERS' STRIKE.

Pittsburg, Sept. 3.—Pittsburg's shipments of coal to southern ports threatens to be badly crippled by a strike of 350 caulkers and ship repairers. In the event of a sudden rise coming in the rivers, millions of bushels of coal now ready for shipment will be delayed and an enormous loss will be suffered by the shipping companies.

The trouble is said to have been brought about by Monongahela River Coal & Coke company discharging a number of caulkers for, as the strikers maintain, joining the union.

STRIKE POSTPONED.

Pittsburg, Kan., Sept. 3.—The threatened strike of the miners employed by the Big Four mines has been postponed until the national board of the United Mine Workers of America is heard from, and the men went to work today under contracts dictated by the operators.

The Central Coal and Coke company posted notices at its shafts stating that it would pay the 65 cent mine run price and the eight-hour day is to prevail, but it will not sign with the United Mine Workers of America. The Kansas and Texas Coal company did not post notices, but the men went to work understanding the conditions of their contracts.

Notices were posted by the other Big Four companies stating that on and after today the mines would be run under the contract presented by the operators at the late convention.

ONE FARE ROUND TRIP PLUS $2 over Rio Grande Railroad to Chicago, St. Louis, Kansas City, Omaha and intermediate points, every day to Sept. 12, return limit Oct. 7.

NEWS NOTES FROM DENVER

Anderson Trial Postponed---Pike's Peak at the St. Louis Exposition.

Denver Bureau
Colorado Springs Gazette.

Denver, Sept. 3.—The trial of W. W. Anderson, charged with the shooting of Tasmen Arrington, was called at the West Side court at 10 o'clock this morning, but at the request of the defense was postponed until the next term. This will allow Judge Johnson instead of Judge Mullins to act as trial judge.

There were no new developments in the bribery case during the day. A large number of people are of the opinion that the cases can be reopened if informations are filed, the testimony of Juror Hale.

A report of real estate transactions for August, 1901, shows that there were 247 trust deeds executed, 456 warranty deeds, 83 quit claim deeds, making a total of 814, with a value of over $1,000,000.

Col. Ben Block, who was recently appointed one of the commissioners of the Panamerican exposition at Buffalo will submit to the St. Louis commission a plan for a Colorado exhibit at St. Louis. He has conceived the idea of constructing a huge mountain, the top of which is to represent Pike's Peak. He proposes to sink shafts for the purpose of illustrating our mining industry and will also build irrigating ditches with which to show our method of agriculture.

A number of coaches of a Colorado & Southern passenger train overturned at Stone Spur last evening, and eight people were injured. The train was returning with a crowd of picnickers from Platte canon, and in rounding a curve left the rails. No one was seriously hurt.

Two barns at 2720 Myrtle place, burned this morning. Two horses and [illegible] were suffocated in the flames. It is believed the fire was of incendiary origin.

Catholic Touhy for many years past superintendent for the Denver Union Depot and Railroad company, died at 5 o'clock this morning at his home, 2804 Champa street, after an illness of about four months. He has been an employe of some railroad company from 1858. He was given the position which he held when he died in 1894. Five sons and one daughter besides his wife, survive him. He was a member of the Masonic fraternity and held his membership at Grand Island.

A special from Lamar says: L. E. Pillaud, head miller of the Lamar mill, shot himself dead last night. Domestic trouble is supposed to have been the cause.

A special from Crested Butte, Colo., says that the body of Joseph Hurlow who disappeared last winter, was found near that city this morning. It is supposed that he was overcome in a snow storm. He was one of the old miners of Colorado.

The third annual convention of the Rocky Mountain Interstate Medical association convened in this city this morning. Doctors were present from Colorado, Utah, Idaho, Montana, New Mexico and Arizona. Dr. C. H. Fleming of Denver, who is president of the association, called the meeting to order and Mayor Wright delivered the address of welcome. The remainder of the day was devoted to the hearing of reports and of the reading of papers of a technical nature.

A report is being circulated in Denver tonight that Grover Cleveland has announced his decision to come to Colorado during the winter and engage in a bear hunt.

During the present summer over 7,000 more tourists have visited Colorado than were here last year. These figures are given out by Major S. K. Hooper, general passenger agent of the D. & R. G. and are taken from the books of the joint ticket associations at Colorado Springs, Pueblo and Denver. The report does not include the 10,000 Epworth leaguers who passed through Colorado on their way to the coast.

The mid-summer meeting of the Colorado Editorial association will be held September 12 at the Windsor hotel in this city. The editors will be given a trolley ride through the city and an excursion over the D. & R. G. and the Cripple Creek Short Line to Cripple Creek. A banquet will also be held at the Windsor hotel.

POISONED CANDY.

Deadwood, S. D., Sept. 3.—Mrs. Myra Priest, a waiter in a restaurant in this city, is under arrest for attempted murder. She has a daughter about 12 years old who has been adopted by a woman named Voner, who lives near Whitewood. Mrs. Voner is well off financially and had promised to leave to the little girl all her property. To hasten this end, it is alleged, the mother of the girl sent a box of candy saturated with strychnine to the little girl with instructions not to eat any of it herself but to give it to Mrs. Voner, which was done. The woman ate of the candy and was immediately taken sick. Her life was saved by a physician.

UNNATURAL FLESH

Using Postum Food Coffee.

"I have used coffee many years; in fact, ever since I was a child, until a few months ago I became satisfied that it hurt me—caused the miserable drowsy feeling and the bloated condition of my body. I was very fleshy all the time, unnaturally fleshy.

"Since I left off drinking coffee and use Postum Food Coffee the effect has been wonderful. I feel like a different person. The bloating has all gone. I am very much thinner and more natural in shape, have a little appetite and do not feel sleepy and drowsy as before. I shall never use any more regular coffee.

"When I first tried Postum I was not satisfied with it, but decided that the fault must be my own, for so many people used Postum and liked it that I knew there was some trouble in my preparation of it, so I examined the directions carefully and found that I should boil it long enough to bring out the flavor and the food value. When I prepared it right it was elegant and I am more than pleased with the delicious beverage I have for breakfast every morning." Mrs. E. M. Pope, 1158 Twenty-third street, Detroit, Mich.

CRIPPLE CREEK NEWS NOTES

Board of Aldermen Endorses Mayor Crane's Action in Putting a Stop to Gambling.

Cripple Creek Bureau
Colorado Springs Gazette.

Cripple Creek, Sept. 3.—Franchises and the gambling question in Cripple Creek occupied the attention of the city council at its meeting tonight. The council chamber was crowded with attorneys from the companies seeking franchises, spectators and a delegation from the Women's club with a resolution indorsing Mayor Crane for the position he has taken in closing gambling in this city. The resolution was adopted by the Woman's club this afternoon and is as follows:

"Whereas, Hon. F. J. Crane, mayor of the city of Cripple Creek, has announced his intention to close and keep closing the gambling establishments of this city, and whereas it is the sense of this meeting that the mayor, in the stand he has taken, is entitled to the moral and substantial support of law-abiding citizens of this community, and that gambling is financially a blight, morally a curse and legally a crime, and as such should be eradicated, not only from the city of Cripple Creek, but the entire county, be it

"Resolved, That the Woman's club of Cripple Creek pledges to Mayor Crane its moral support and its active co-operation in ridding the community of this pestilence; that a committee of five be appointed by the president to present Mayor Crane a copy of this resolution, and that the committee be directed to present copies thereof to the sheriff and district attorney and request those officers to assist the people to suppress gambling in this county."

This resolution was presented and accepted by the council. There was some discussion however, Alderman Hanley not thinking it proper that the resolutions should be presented to the council when the council took no action in the closing of gambling. Alderman Funk, one of the strong supporters of Mayor Crane, presented the following resolution, which was passed:

"Whereas, Gambling has been conducted in open violation of the statutes of the state and the ordinances of Cripple Creek, and

"Whereas, It was to this flagrant violation of the ordinance that the recent tragedy culminating in the death of Samuel Strong was due, therefore, be it

"Resolved, That the board of aldermen indorse the action of the mayor in his recent proclamation closing the gambling saloons of this city."

After the gambling question had been disposed of the ordinance committee made its report. The committee has been considering the propositions of the Peoples Electric company, the Pike's Peak Power company, and that of Edgar E. Wade. The report recommended that the franchise of E. E. Wade be published prior to final passage, but amended, however, so that 2 per cent of the proceeds of the electric lighting system be paid into the city treasury, and that the power station be constructed and operated in Cripple Creek. With a few minor amendments, the committee reported that it considered the Wade franchise to be the best, and that with the Wade company operating a plant in competition with the present Gold Belt company, the best results would be attained. The committee also recommended that the franchises of the Peoples and Pike's Peak companies be postponed. Alderman Funk made a minority report, allowing all three franchises to be published. The debate then commenced, and the aldermen, who made the majority report were severely attacked and openly charged with bribery by the attorney for one of the companies. A. E. Carlton spoke in favor of the minority report and talked along the lines of competition, he believing that the people would secure better rates if there were more companies in the field. Judge Knowles also spoke in favor of this report, and for the Pike's Peak Power company. F. J. Hanna, attorney for the Peoples company, severely upbraided the report of the majority committee, and Attorney Withers spoke for the Peoples Electric company. Judge Graham, who is Edgar E. Wade's attorney, made an extended speech for his client, and M. L. Stern spoke for the present Gold Belt company and thought it was peculiar that the three companies were so anxious to have their franchises published together. He thought it was a family affair. H. L. Sheppard spoke for the Peoples company, and Attorney Wilder for the Pike's Peak company. After the various speeches Alderman Hanley branded the allegations of bribery as lies. The council then took up the question again, and by a vote of 4 to 3, the minority report was lost. The Wade franchise was granted by a vote of 5 to 2, and the ordinance was ordered published. It will be voted upon by the taxpayers at the coming election.

There was a slight accident on the upper electric road this morning. The 7:35 o'clock car left Cripple Creek, with a large number of passengers. When it reached Anchoria-Leland, it was to pass another car on the side track. This car [illegible] quite late, and the conductor thought he would be able to reach the next switch, and pass thete. The car going east had got to a point near Jefferson stop, when the other came in sight. Some one yelled that the westbound car was running away, and a number of people jumped. M. D. Mattoon of El Paso avenue, in jumping, fell and sustained a bad scalp wound and a fractured rib. L. Campbell sustained slight bruises. Both cars were stopped before a collision resulted.

The case of school district No. 1, Teller county vs. John Rappenthal was filed in the county court today. The school district sues to quiet title to lot 17, block 3, Altman.

The C. S. & C. C. D. Ry. Co. commenced action in the district court today against the Ironclad M. & M. Co. In its petition the plaintiff company states that a right-of-way across the respondent company's property is necessary in order to complete its line from Hoosier pass to Midway. The railroad company estimates that $425 will cover the damages to the property. No judges being at court, no order was made.

Next Monday the schools of the entire Cripple Creek district will open for the year. The teachers have already commenced putting in an appearance, and they held a meeting in the High school building today. The school houses have been given a general overhauling during the vacation, and are now in first-class condition.

Judge A. S. Frost of the County court this morning set the docket for the September term of court. There are thirty civil cases, and two criminal cases to be tried at this term. The entire morning was taken up in the fixing of the dates of the cases.

The Elks baseball team of Cripple Creek will play the Elks team of Colorado Springs at Union Park next Saturday afternoon. The local team has suffered one defeat at the hands of the Colorado Springs Elks, but promised to even things up on Saturday afternoon. The game will commence promptly at 2:30 o'clock.

The officers of the Lincoln Republican club have arranged another good program for tomorrow night's meeting in the new club rooms, corner Second street and Carr avenue. The club has made a wonderful gain in members and enthusiasm during the past few weeks, and will prove an important factor in the coming campaign. Differences between the leaders of the Democratic party are helping the Republican cause along in Teller county.

G. L. Sites and A. W. Buell commenced action against H. D. Thompson in the district court today to recover $185.97 and interest alleged to be due upon two promissory notes.

A marriage license was issued to Thomas Burke and Amanda C. Waterbek, both of Cripple Creek.

A. W. Grant, clerk of the district court and his wife, returned home last night from a two weeks' hunting and fishing trip spent in the vicinity of Steamboat Springs.

Out-of-town arrivals at the National hotel today were: Henry Hutton, Mr. and Mrs. M. L. Stern, D. J. O'Callahan, C. A. Brandenburg, and Mr. and Mrs. C. F. Lacombe of Denver; H. G. Lunt, Leonard Carpenter and H. A. Izzard of Colorado Springs; F. C. Moore and wife of Bowling Green, Ohio; E. S. Leonard of Omaha; H. H. Kinney, A. B. Hikbee and Albert Borden of New York; J. M. Hammond of Hamburg, Ia.; J. P. Wahan, G. N. Murno, Jr., of Pittsburg; Mr. and Mrs. Robert Bleakie and Miss Eugene Bleakie of Boston, and Mr. and Mrs. H. Halthusen and Miss Halthusen of Florissant.

ELKTON

Special to the Gazette:

Elkton, Sept. 3.—The mother of Mrs. Ford Ecton, who has been visiting with her daughter during the summer, left this morning for her home in Kearney, Neb. Mrs. Ecton accompanied her as far as Colorado Springs.

The regular Monday night dance was greatly enjoyed at Bernard's hall last evening. Being Labor day night, there was a larger crowd than usual present.

Mrs. E. W. Hayden and daughter, who have been visiting here during the summer, have returned to their homes in Colorado Springs.

Harry Weakant spent yesterday in Colorado Springs and vicinity. He went down over the Short Line and having his camera with him, brought back a number of excellent views of scenery on this road. He also ascended the Peak.

PUBLIC DEBT

Washington, Sept. 3.—The monthly statement of the public debt issued today shows that at the close of business August 31, 1901, the debt less cash in the treasury amounted to $1,036,302,968, a decrease for the month of $5,890,057.

The debt is recapitulated as follows:

Interest bearing debt	$ 982,640,000
Debt on which interest has ceased since maturity	1,540,020
Debt bearing no interest	352,257,411
Total	$1,336,437,431
This amount, however, does not include $760,033,632 in certificates and treasury notes outstanding which are offset by an equal amount of cash held for their redemption.	
The cash in the treasury is classified as follows:	
Gold reserve	$ 150,000,000
Trust funds	280,021,859
General fund	185,377,975
In national bank depositories	132,677,534
Total	$1,036,840,368
Against which there are demand liabilities outstanding amounting to $568,509,103, leaving a cash balance on hand of $329,971,455.

EVERYTHING FOR EVERYBODY

NEWS NOTES FROM VICTOR

Victor Bureau
Colorado Springs Gazette.

Victor, Sept. 3.—Chas. Eyler, a miner, was held up and robbed by two masked men on the Midland Terminal track near Independence early this morning. Eyler was on his way home, walking up the tracks from Victor and just before he reached Independence he met two men wearing black masks. To the customary command, Eyler held up his hands. He had just $7.50 in cash and a gold watch and chain upon his person. The robbers took all. Inside the watch was the photograph of his sister, and Eyler asked the hold-ups to return it to him. They were very obliging and gave him his time piece, together with the picture. Eyler is not close to the hold ups.

A valuable horse, the property of Keith & Grube, the Goldfield ore haulers, was found suffering with hydrophobia this morning and it was necessary to kill the animal. For a number of weeks past the horse has been running upon the plains, but this morning it was placed in the barn. When a teamster went up to the barn he found the animal frothing at the mouth and biting at imaginary articles. It was also violently paving. A veterinary surgeon was called and the animal's illness was pronounced hydrophobia. In accordance with the horse doctor's recommendation the horse was killed.

A spring was encountered this morning while workmen were engaged in sinking a trench for the foundation walls of the new Opera house. The flow is heavy and constant pumping will be required until the foundation wal lis completed.

The city firemen gave their fifth annual ball at Armory hall last night. About 100 couples were in attendance and all had a good time. The firemen netted a neat sum by the enterprise.

A force of men was put to work this morning on the new Baptist church building. The brick and lumber for the structure has arrived and the church will be pushed to an early completion.

Good progress is being made upon the Short Line. The Victor division will be completed in the very near future. Steel has been laid on the Victor side of Wilson creek, the engine crossing the bridge for the first time today. Yesterday the track was completed through the Gold Mountain cut and over the hill, and today the work of stringing ties over the Independence mine branch and to the crossing over the Florence and Cripple Creek road was under way.

Peter Gill suffered painful injuries while driving on South Fourth street last evening. He undertook to turn around on the hill south of Portland avenue. The buggy overturned and it, with the occupants, went down the steep embankment about 50 feet. The buggy was only slightly injured, but Gill received severe body bruises. He was removed to his home, 220 South Second street.

R. W. Purnell, Kintersville, Pa., says he suffered 25 years with piles and could obtain no relief until DeWitt's Witch Hazel Salve effected a permanent cure. Counterfeits are worthless. Hefley-Arcularius Drug company, C. E. Smith, 117 South Tejon street.

Examined

Have you stopped to consider how essential is the O. K. by a pharmacist of equal standing with the one that does the compounding? By this means you have absolute accuracy. Our

NEWS NOTES FROM PUEBLO

New Furnace to Be Blown In---Gunnison County's Novel Proposition.

Pueblo Bureau
Colorado Springs Gazette.

Pueblo, Sept. 3. Tomorrow afternoon furnace A of the Minnequa steel works, which has been in course of construction for about one year, will be blown in. The new furnace is 95 feet high, 21 feet wide at the bosh, 14 feet wide at the top, and 15 feet in diameter at the hearth. There are four upright stoves, each 105 feet high and 21 feet in diameter. The new furnace will have a capacity of from 400 to 550 tons of pig iron each day, and costs about $750,000. The officers of the Minnequa steel works and the heads of departments will be present at the blowing in.

In connection with double tracking the Bessemer system of car lines, Manager John Vail of the Traction company announced today that the company contemplated in the near future extending their lines along Evans avenue to the Bessemer ditch, with the prospect of continuing through the Minnequa townsite. This will bring the lines to the proposed new main entrance of the Minnequa steel works. It is also thought probable that the company will also run a line to the Philadelphia smelter. The other improvements being made by the company are being pushed with all possible speed.

Work on the new steel wagon plant to be built adjoining the Minnequa steel works will be started about October 1. It is understood that the $350,000 of capital stock of the company has been entirely subscribed and that the work of getting the plant under way will be pushed as rapidly as possible. The wagon factory will use materials from the C. F. & I. Co.

Mayor George West has invited the mayors of Salida, Canon City and Florence to meet with him at 10 o'clock Saturday morning in the council chamber of Pueblo with a view to formulating plans to prevent further pollution of the Arkansas river. Members of the city council and interested citizens are also invited to be present.

The public schools of district No. 1 and most of the private schools of the city began their fall terms today. All the schools report an increase in attendance over last year.

Directors of the State Fair association were today in receipt of a communication from the Gunnison county commissioner asking if arrangements could be made for Gunnison county to have a building constructed of bales of hay at the fair grounds in which to exhibit the resources and products of Gunnison county. The directors will offer every inducement for the Gunnison county people to make the exhibit as large and comprehensive as possible.

William King, who was injured at Nepesta, a small station on the Santa Fe road south of this city, died at the Pueblo hospital this morning. It is presumed that he was struck by a train as he was found lying beside the tracks. From papers found on his person, it is known that he was a member of Company G, Second Ohio volunteers, and that he has a son living in Ohio. The remains are held awaiting advice from relatives.

AN EXTENSION OF THE COPARTNERSHIP

Special to the Gazette.

Trinidad, Sept. 3.—The firm of Klein & Rassatt has extended the copartnership agreement to cover their domestic relations as well as their business relations. Mr. Klein and Miss Rassatt were quietly married last Saturday evening by Rev. Mr. Lawler. They expect to commence housekeeping soon but will continue the dry goods business under the old firm name.

THEY ARE PERSONALLY CONDUCTED.

Denver-Colorado Springs game postponed.

GAMES TODAY.

Kansas City at St. Joseph.
St. Paul at Minneapolis.
Denver at Colorado Springs.
Des Moines at Omaha.

KIDNAPERS HIT HARD

Des Moines, Sept. 3.—The feature of the game today was the batting, in which Omaha had the best of it in both number of hits and effectiveness. Attendance 200. Score:

		R.	H.	E.
Des Moines	1000420006—	7	17	3
Omaha	0041131110—	11	21	2

Dausman and Kleinow; Alloway and Buckley.

APOSTLES TAKE ANOTHER

St. Paul, Sept. 3.—St. Paul won the first of the series of three games transferred from Minneapolis. Score:

		R.	H.	E.
St. Paul	0303030113—	11	14	2
Minneapolis	4100000006—	5	7	6

Gehring and Wilson; Fraser and Mullane.

SAINTS DEFEAT LEADERS

St. Joseph, Sept. 3.—St. Joseph easily won today's game by hitting the ball hard and often. Score:

		R.	H.	E.
St. Joseph	4204100 0—11	13	1	
Kansas City	3000000 0—	3	5	4

Maupin and Garvin; Gibson and Beville.

AMERICAN LEAGUE.

SENATORS WON IN NINTH.

Detroit, Sept. 3.—After Detroit had tied the score in the ninth inning on two singles, Mercer's wild throw and a sacrifice, Washington won in the tenth with three singles and a base on balls. Score:

		R.	H.	E.
Washington	1010000002—	4	10	1
Detroit	0000000110—	3	7	4

Mercer and Clarke; Yeager, Shaw and McAllister.

BREWERS AND ORIOLES DIVIDE HONORS.

Milwaukee, Sept. 3.—Baltimore and Milwaukee split even on the double-header this afternoon, the former team shutting the Brewers out in the first game and losing the second to the locals. McGinnity, the reinstated "Iron man" of the Orioles, pitched both games and held the Milwaukee men down to a total of 15 hits for 17 innings. Score:

First game—		R.	H.	E.
Milwaukee	0000000000—	0	6	5
Baltimore	1020102400—	10	14	1

Sparks and Maloney; McGinnity and Bresnehan.

Second game—		R.	H.	E.
Milwaukee	2010100020—	5	9	4
Baltimore	0100000000—	1	5	2

Hussing and Maloney; McGinnity and Bresnehan.

CLOSE GAME.

Chicago, Sept. 3.—Philadelphia won a close and exciting game today in the first inning. Two errors and a scratch single filled the bases, all three scoring on McIntyre's long double. Only two hits were made off Callahan in the remaining innings. Score:

		R.	H.	E.
Chicago	0100000000—	3	6	5
Philadelphia	3000000000—	3	4	1

Callahan and Sugden; Fraser and Sleetman.

BOSTON WHITEWASHED.

Cleveland, Sept. 3.—Cleveland established a new record this afternoon by administering two coats of whitewash to Boston. Moore and Chrystal, the new pitchers secured from Albany, N. Y., pitched grand ball and received almost faultless support, while on the other hand errors were responsible for three of the local's five runs. Lewis held Cleveland down to two hits in the first game, errors by Parent and Ferris allowing Schelbeck to score Cleveland's only runs. Scores:

First game		R.	H.	E.
Cleveland	0000010 04—	5	2	0
Boston	0000000000—	0	2	3

Moore and Wood; Lewis and Criger.

Second game—		R.	H.	E.
Cleveland	0101000 02—	4	8	2
Boston	0000000 00—	0	5	6

Chrystal and Wood; Mitchell and Schreck.

NATIONAL LEAGUE.

NEW YORK AT BOTTOM.

New York, Sept. 3.—New York's ball team is now in last place. For nearly four months and until today the Chicagos occupied this position, but the latter played so much better ball today that the result was never in doubt. Score:

		R.	H.	E.
Chicago	1011210 40—	10	14	3
New York	0100110 01—	4	10	4

Menefee and Kahoe; Maul and Warner. Earned runs, New York 2, Chicago 4; base on balls, off Maul 2; off Menefee 2; struck out, by Maul 2, by Menefee 3; home run, McBride; two-base hits, Murphy, Doyle 2. Umpire—Emslie.

TOOK ONE EACH.

Brooklyn, Sept. 3.—Brooklyn and St. Louis broke even in their double-header today. The home team won the first game by a fine rally in the fifth, when five singles, topped off by Dahlen's three-bagger, scored five runs. Donovan had the visitors guessing after the fifth inning and placed nine strike-outs to his credit. The Brooklyns took the lead in the fifth inning of the second game by hammering Murphy's curves hard and had the victory apparently safe up to the ninth. Scores:

First game		R.	H.	E.
St. Louis	0101100004—	6	8	1
Brooklyn	0100501 01*—	8	15	0

Powell and Ryan; Donovan and Farrell. Earned runs, St. Louis 1, Brooklyn [illegible] two-base hits, Farrell; three-base hits, Wallace, Burkett; home runs, Burkett, Wallace; stolen bases, Burkett, Wallace, Dolan; bases on balls, off Donovan 2; struck out, by Donovan 9, by Powell 5. Umpire—Nash.

Second game—		R.	H.	E.
St. Louis	3010001 04—	8	14	3
Brooklyn	0000052 00—	7	10	2

Murphy and Nichols; Newton, Kitson and Ahern. Earned runs, St. Louis 5, Brooklyn 4; two-base hits, Burkett, Schriver 2, Murphy, Schreckard, Dolan 2; three-base hits, Wallace, Schreckard; base on balls, off Murphy 3; struck out, by Newton 3, by Murphy 2.

PHILIPPI WAS INVINCIBLE

Boston, Sept. 3.—Pittsburg made it three straight from Boston, winning today's game easily. Boston could do nothing with Philippi's delivery except in the eighth inning, when four clean singles netted them two runs. Score:

		R.	H.	E.
Boston	0000000 02—	2	8	0
Pittsburg	1000020 10—	5	9	1

Dineen and Kittredge; Philippi and O'Connor. Earned runs, Pittsburg 2; two-base hits, Hamilton, Wagner; base on balls, off Dineen 3, off Philippi 1; struck out, by Dineen 3, by Philippi 2. Umpire—Dwyer.

COMMITTEE NAMES CONVENTION DAY

Republican County Delegates Will Meet September 21---Political Pot Boiling.

The Republican county convention was held in the Temple theater last night at about six o'clock, the hour being decided upon for the election day. This was the most important convention held in the Republican county for years. The primaries will be held on Saturday, September 21, preceded by the county convention. A meeting was held in the afternoon at which Paul Hock, Seven of the delegates were present. Aside from the business transacted, the convention was composed of the delegates to the convention, the number this year about 150. Several general recommendations were made, one of which was that there will be one delegate at large for every 10 Republican county officers. This is a change from the old rule, which allowed two delegates at large. This rule has been in force for more than two years. Mr. Hock, of the Republican committee, has served more than a term.

As a result of the decision of the committee, there will be no contest for the convention. The Republican campaign will last only two weeks, the election day falling on November 5. Already at least four or five of the probable nominees are known. The candidates for renomination are County Clerk Reed, County Treasurer Pollen, County Superintendent Collins and Coroner La So far no opposition has been developed against them, and as all have proven capable officeholders their nominations by the convention are expected.

The only names thus far mentioned for the nomination for sheriff is that of W. R. Gilbert, superintendent of bridges. The construction of the Midland railroad. If nominated he will have for his opponent Sheriff Don C. Coddard who is almost sure to be the Democratic nominee.

Several names are spoken of for the office of county assessor. M. Layden, the present incumbent, has already served two terms and is again a candidate for renomination by the Democrats. Among those suggested by the Republicans are Strachan, H. R. Chapman and T. P. Day. Edgar Howbert was asked by his friends to be a candidate but has declined to run.

County Commissioner Doran's term expires this year and he is a candidate for renomination by the Democrats.

The Republican candidate may be a Colorado City man and W. P. Epperson has been brought forward by his friends of that city. Among those in this city who are being urged to be Doran's opponent are J. B. Fowler and F. L. Rouse.

Started for Homes of Cliff Dwellers

The Colorado Cliff Dwelling association left last night for Manitou and the Mesa Verde, last night. Many distinguished scientists of the A. A. A. S. and a number of sightseeing tourists, besides a few who intend to have over the Sunday, left for the south eastern part of the state. The following have accompanied the association: Dr. Walter Hough, Dr. McCurdy, Dr. Walter Russell of the Smithsonian institute, Washington and their wives, Mr. Hart, party and Mrs. J. W. Powell, Mr. W. S. Peabody and Mr. Stevens of Denver, representing the Cliff Dwelling association as well as Mr. Cowles, Murg regent of the association, Mr. Pratt, Miss Putman, Mr. Lennox, Mrs. Fields, Mrs. Rouse and others also accompanied them. Dr. McCurdy is at the head of the bureau of ethnology at Yale. Dr. Ward represents the University of Nebraska. Mrs. C. A. Eldredge of this city, secretary of the association is at Manitou to receive the party.

The excursion marks an epoch in the history of the Mesa Verde. Hitherto it was regarded as an extremely perilous undertaking to visit the cliff dwellings, but the road which is being built takes a way much of the element of danger which has always marked the trip. It was to inspect this road that the trip was originally planned by the association.

The party will be gone a week.

Prohibition League Scores Drug Stores

The following statement is furnished the Gazette for publication by the League of this city:

Gazette:—Is it true news that the people are actually taking steps to enforce the liquor ordinance in Colorado Springs? The Colorado Journal, in its report of the arrest of John S. Wise on the drug charge, says that it is presumed he will pay a fine and costs will be assessed and that will end the matter. The trial was set for Wednesday, Sept. 4.

Now we enter the most solemn protest against any such assumption that the most merciful treatment is be spoken for a most outrageous violation of the law. Why in the name of common justice and decency is this community expected to sit quietly by and permit another farce to follow in the trail of so many that have been acted in the past? Not that precedents are lacking and for that matter the Telegraph is quite justified in the assumption.

We want no minimum fines. We call upon all people of this city who pretend to either lead or follow in the direction of righteousness to see to it that if conviction follows this arrest or any others for violating the liquor laws of this city the maximum fine be assessed and nothing short of the permanent forfeiture of the convicts license permitted. Every good citizen should attend this trial and guarantee each for himself and the community that absolute justice be meted out for once in the history of Colorado Springs for violation of the liquor laws.

The citizens of Colorado Springs are urged to consider well these events, which are of such incalculable weight concerning the moral welfare of our home city. Note the foregoing and the following facts:

The above communication was [illegible] Monday night [illegible] of the hour it was left over for a subsequent issue.

On Tuesday morning the trial of Jones & Wellington was called at an early hour, at least 24 hours before the date announced in the Colorado Telegraph which was authentic, and set the trial for Wednesday today.

The accused pleaded guilty to the charge of keeping intoxicating liquor within 10 feet of their soda fountain, this having been done contrary to their orders, as they had the gall to assert.

A fine of $50 and costs was assessed and paid and these self convicted criminals were allowed to depart laughing in their sleeves at having ascertained just the price they and other saloon druggists would have to pay to kick over the last vestige of the self respect of this community. Today they are virtually guaranteed that by paying an occasional an all fine they may proceed otherwise undisturbed in their nefarious business.

This notwithstanding the assertion credited to Dr Edward Bralsim printed in the Evening Mail of July 19 that there is no possibility of anybody ever establishing open saloons in Colorado Springs. At the present rate how long do you think it will be until the open saloon and all that goes with it will be established in our city?

Yours truly,

Prohibition League.

W. F. Hurt, Secretary.

A DEPARTURE

I have decided to relinquish the Ladies' Tailoring Department and use the more space occupied by that for the following lines of Ladies' Wear which I have the exclusive agency for:

FLANNEL SHIRT WAISTS

PLAIN AND EMBROIDERED

Black & Flagg

Silk Waists—These dainty creations will surely have a big sale.

Ladies' Walking and Street Gloves

Keiser's Fall Stocks and Belts

Maynard's Sweaters for Fall

A Sweater for comfort at field and outdoor sports

WEIR THE TOGGERY

10 North Tejon St

NEW APPARATUS FOR PHYSICS DEPARTMENT

The department of physics at Colorado college is preparing for the opening of the new year by making some important improvements and additions to the apparatus.

Dr. J. C. Sheld, who took charge of this department last year, is one of the leaders in the original research among the scientists of the country and he intends to carry on much of this work during the coming year. He has been purchasing new pieces of apparatus to facilitate the work in this line at the college next year. Among the new instruments to be put in is a heliopticon, by means of which the moonlight will be used in demonstrating lectures. Electric light has been used heretofore but the clear atmosphere of Colorado and the abundance of sunny days out here makes the sunlight very practical. It is a much better light in many cases than can be secured in any other way.

A Kater's reversible pendulum will also be installed for use in the work of the upper classes. It is used to determine the force of gravity.

The science department will have a lathe to be used in constructing pieces of apparatus. It will be a three foot machine lathe and will be adequate for the present needs of the department in the constructive line. Most laboratories construct much of their apparatus themselves and the college will do so hereafter.

Mrs. W. S. Hunt has returned from Denver where she has been visiting relatives.

Doing Ten Hours Work in a Minute

For a number of years long wooden flat cars were loaded arduously by shoveling ore, coke, coal, gravel, broken stone or whatever loose materials were to be shipped from point to point, and unloaded arduously in the same way. Large capacity steel cars were introduced which reduced repairs and wear and tear generally and made large shipments easier to handle. Machinery came in with derricks and lifts and traveling cars to make loading more rapid and economical and now a car has been invented which does away with the tedious unloading. In three-quarters of an hour seven men used to be able to unload 25 tons. Now a man without manual labor can in a few seconds unload twice that amount. Mere force of gravity does the work. Adjustable steel valves or floors make it possible to discharge on either side or both sides at once, on either or both sides of the center or on both sides and center at the same time. In motion they will spread the load from five to 30 feet from the track, the width of the spread depending upon the speed of the train. This is all done without careening or moving the body of the car. This car is made adapted for ballasting. The load can be spread in any part of its various ways by one ordinary laborer and the spreading is regulated by the speed of the train. The average car has a capacity of 80,000 pounds. The car has also a convertible use. Being made of steel it can be changed in a minute into a well armored car for military operations with narrow loop-holes and well-covered defence. It has therefore, a double advantage for armies in the field.—(Arthur Goodrich, in The World's Work.

Don't wait until you become chronically constipated but take DeWitt's Little Early Risers now and then. They good order. Easy to take. Safe pills. Hefley Arcularius Drug company. C. E. Smith 11 South Tejon street.

Suppressing the Poster Nuisance

Surely some limit ought to be imposed upon nuisances of such aggravated and exasperating character. It is demanded upon grounds of public morals, of aesthetic sentiment and of legitimate business. As to morals the nuisance is degrading as to sentiment, it is repulsive and as to business it is grossly unjust. Street car companies and other corporations owning valuable public franchises of the same kind often granted at little or no cost, have no more right to convert their property into traveling bill boards and advertising agencies on wheels than the custodians of court houses, schools and other public buildings have to convert these places to similar uses. Street car and elevated coaches are quasi public structures constructed, chartered and operated for the one specific purpose of conveying passengers with the largest possible degree of safety and comfort and they go entirely beyond their strictly legal and chartered privileges when they subject their patrons to the nuisance of sign advertising for the sake of additional revenue. In so doing they also take an unfair and unjust advantage of the extraordinary facilities at their command to invade a field of [illegible] and thus [illegible] grave injury to honest and legitimate lines of enterprise where advertising is the chief is not the sole source of revenue.—(Leslie's Weekly.

Sid Darling 1012 Howard street Port Huron Mich. writes: I have tried many pills and laxatives but DeWitt's Little Early Risers are far the best pills I have ever used. They never gripe. Hefley Arcularius Drug company. C. E. Smith 117 North Tejon street.

LAST GRAND WILD FLOWER EXCURSION OF THIS SEASON THURSDAY SEPT. 5TH

$1 50—ROUND TRIP—$1 50.

150 miles of the grandest scenery on earth up through Eleven Mile Granite stops will be made to gather wild flowers and fossils. Observation cars will be attached and also a lunch car. Wild Flower excursion leaves Santa Fe station 8 15 a. m. Returning at 5 30 p. m. Go up in the mountains and have a good time. Colorado Midland Ry.

HORSE SHOW DENVER SEPT 3 6

One fare for the round trip via the Colorado & Southern Sept. 3d.

RESULTS BEGET CONFIDENCE

The one is dependent upon the other. Dr. Ellison gives sure results in the treatment of sick people because he concentrates his attention to the special treatment of certain diseases such as Consumption, Asthma, Bronchitis, Catarrh and Chronic Diseases in general. Examination free at office 24 North Tejon St.

When a man is concentrating his undivided attention upon the thing with which he is engaged he can render to those he serves and himself results which reach the nearest possible degree of perfection. Every man with ambition likes to succeed and should desire and diligently seek to excel. Dr. Ellison's conception of success and the best way to achieve it is that it is better to devote one's entire time and energies to learning a few things well than to scatter the same amount of work over a more extensive field of effort. He has been learning how to cure chronic diseases for years. In fact he is learning every day in a better and more effective way how to treat Consumption, Asthma, Catarrh, Bronchitis and Chronic diseases of men, women and children. Every day presents new thoughts and ideas of the most successful methods by which these diseases can be treated. The doctor is just as diligent in the study of his specialty as he was years ago and all who suffer from seated diseases can employ him with a reasonable expectation that they will secure desired results. People who decide to treat with him for the diseases he treats as a specialty have reached an intelligent conclusion and they can investigate his treatment and have their cases examined free of cost if you can come to his office write. The treatment can be taken at your home. Office 24 North Tejon street (over Craigue's grocery store). Office hours: Mornings, from 9 to 12; afternoons from 2 to 5; evenings from 7 to 8 o'clock. Sundays from 2 to 3 p. m.

"A BAD BABY."

A Bad Baby justifies its name. It was probably as bad as any show that ever came to town. A good sized house was present when the curtain went up in the first act but many of the self respecting people left before the second act was over. It was a jumble of songs poorly sung and rank jokes. Some of the costumes were good as far as they went. The show got through by 10 05. This was a delightful feature.

ATTENTION ELKS!

All Elks are requested to meet at 9 30 this morning at the club rooms to attend the funeral of Brother Probst from the Hallett & Baker undertaking parlors.

THE BEST FRIENDS

I saw Ripans Tabules advertised so much read what they had done for other people and thought I would try them and see what they would do for me. I am glad to say that Ripans Tabules are the best friend I have. Have been troubled with my stomach for a good many years was hardly able to do my household work and could not get anything to help me until I commenced to take Ripans Tabules. Now I feel like another woman altogether. My age is 45 years. I have been taking the Tabules for a good while and will continue to take them. I keep the little doctors in the house all the time. Have recommended Ripans Tabules to all my neighbors and will always have a good word for them. Mrs. T. J. Raushmayer. Coshocton O. Jan. 20 1898.

The Crisis

Have you read it? If you were to read but one book of late fiction in a year you should read "The Crisis." More than a quarter of a million copies have been sold already. Cyrus Townsend Brady [illegible] read a book that has so interested and pleased me. Mr Churchill has scored a veritable triumph."

"The charming romance is told with so much historical accuracy and patriotic enthusiasm that the result is an epoch making novel." Philadelphia Eve. Telegraph.

It sells at $1 50

THE NEWS OF MANITOU

GAZETTE'S BRANCH OFFICE -- CHAS. A. GRANT'S STORE

Storm Washed Out Street Car Tracks

The rain storm which visited Manitou and the western part of Colorado City yesterday was the worst of the season. Business was suspended for about two hours. The Rapid Transit company was the most badly crippled.

At Adams crossing the water came across the road in a torrent. The track of the street car line was washed badly for about 100 feet. Fifty feet of this was left in such a state that the rails were hanging in the air. Three of the ties which were each securely fastened to the rails by four inch pins were torn off and carried away in the flood. A number of men was at once sent to the spot but it was about two hours before the tracks could be sufficiently propped to carry the weight of a car.

The house occupied by L. White and family which stands just south of the tracks was completely surrounded by water and the lawn was washed away. A pet dog was caught in the flood but managed to swim out. Miss White was the only person in the house when the storm began and she was badly frightened.

H. J. Merrill, a neighbor of the Whites, lost a number of tickets by drowning. Motorman Barrick tried to cross on the north side of the street but he made a hurried return as he struck a deep bed of quicksand.

Car No. 7 of the Rapid Transit company had a narrow escape at Rocky Point near the home of Dr. Bell. It had passed the point of rocks when almost instantly five tons of rock and earth crushed on the tracks blocking them for about two hours. Had the fall come 30 seconds sooner a serious accident would have occurred. The car was in charge of Conductor Adrey.

The High line in Manitou was also badly blocked. At Deer Path avenue the tracks were covered with earth to a depth of several inches and all up town traffic was stopped.

STOCK COMPANY MAY ENLARGE BIG HOTEL

A plan is on foot to enlarge the Iron Springs hotel and keep its doors open the year round. It is understood the present owners of the house are willing to sell the property and a stock company will probably be formed in the near future to buy the hotel and enlarge its present capacity.

Several prominent people are interested in the new project. Major Hooper, general passenger agent of the Rio Grande system has wanted to see the hotel kept open in the winter for some time. Dr. Denison of Denver, who has recently returned from the International Congress of Physicians in London, is enthusiastic over the idea of having a winter hotel in this delightful spot.

Mr. Munger of Birmingham, Ala., is willing to take a large block of the new stock and Judge Toney of Louisville, who stayed at the hotel part of the summer has expressed himself as willing to help boom the new proposition.

W. C. Frost will leave soon for Albany, N. Y., to see the parties who own the hotel regarding the new project.

Full plans have not yet been formed for the enlargement of the property. A large addition will probably be built on the east end of the present structure. This part of the building will have good comfortable rooms, warmed by cosy fire places, recreation rooms and a large dance hall.

The idea is to make the hotel a resort something like the Broadmoor Casino.

MANITOU TOWN BOARD APPROVES BILLS

The Manitou town board met in regular session last night. All the trustees except Mr. Long were present.

Only routine business was transacted. It being the first meeting in the month the regular monthly bills were read and allowed. They amounted to $1,587 36. Some matters of general interest to the town were discussed but nothing of importance was done.

BRIEF CITY ITEMS

A DANCE—There will be a dance at the Oak pavilion Thursday evening. It will be one of the last of the season.

STEELS TRIAL—The trial of Walter Steel, the colored man who is alleged to have stolen the rings from the Hart curio store, will come up at 10 o'clock this morning.

BROKEN HIP—Mrs. Drake, the mother of Martin Drake of this city, fell Monday on her porch and sustained a bad fracture of the hip. She is now at her home 307 Jefferson street.

DRIVING PARTY—A party of Barker house guests drove to Woodland park yesterday. Those in the party were Mrs. A. M. Bush, Miss B. Bush, Miss S. L. Bush, Susanna Bush, Mrs. J. H. Robinson and Mrs. John B. Utt. They are from Dubuque, Ia.

WILL DINE DOCTORS—Mrs. Bates will give some of the most prominent physicians in Denver a dinner at the Iron Springs hotel in the near future. Among those who probably will be present are Dr. Barney, Dr. Denison and Dr. Rogers. The object of the dinner is to show the Denver doctors the advantages of Manitou as a fall and winter resort.

SUNRISE EXCURSION—The Cog road will run its regular sunrise excursion to the top of Pikes Peak tomorrow morning. Electric cars will leave the corner of Pikes Peak avenue and Tejon street in this city at 1 30 and will connect with the Cog train at Manitou. The start from Manitou will be made at 2 15. This will be next to the last excursion of the year. One more will be run next Thursday and that will close the sunrise trips.

PERSONAL MENTION

T. J. Sanford has returned to the Barker house after a week's absence in Estes park.

Mr. and Mrs. Port of Kansas City, who have been spending the summer at the Cliff House, have returned to their home.

J. H. Sydey with a party of three, from St. Joseph, has registered at the Ruxton.

Giles F. Roosevelt, who has been the clerk at the Sunny Side during the past season, has returned to Denver. Mr. Roosevelt has for some time been a teacher in the Denver Manual Training school and is also a senior in the Denver Medical school.

Mrs. E. Kilbourne, for some time a guest at the Sunny Side, has returned to her home in St. Louis.

Rev. N. E. Hanson of the First Baptist church, Wichita, Kan., is a guest at the Norris house.

Edward Hess, a wholesale grocer of Wichita, Kan., is staying at the Norris house.

Senator J. W. Tapp of Kansas is at the Norris.

Mr. W. A. Wallace, a wealthy merchant of Carthage, Mo., is again at the Sunny Side.

THE NEWS OF COLORADO CITY

GAZETTE'S BRANCH OFFICE:

M. K. Rankin's Coal office, 513 Colorado Avenue.

New School Year in Colorado City

The new school year of the Colorado City schools began yesterday morning with an unusually large attendance. Never in the history of the city have so many scholars appeared at the doors of the different buildings at the appointed hour for opening.

The work of handling the large number of pupils was ably arranged for by Superintendent Grafton. Some delay was experienced in delivering supplies but that was to be expected.

The new Whittier building will not be opened until next Monday. The La Vergne building, the other new school house erected this summer was opened this morning. The building is well adapted for the purpose for which it was erected.

The staff of teachers is the best the city has ever secured. The new teachers come highly recommended and doubtless will be very successful in their new field.

BRIEF CITY ITEMS

MEETS TONIGHT—The American Annuity association will hold a meeting this evening.

EASTERN STARS—The Eastern Stars meet tomorrow evening. Two candidates will be initiated.

[illegible] day evening. The party of about 20 young people will meet at the Bancroft school and from there will go to Manitou and the Garden of the Gods.

A NEW HOME—Rev. W. F. Powell has moved to his new home 21 Jefferson street. Mr. Powell intends to put in a hard winter's work in his church. He reports that the next session of the Midland Baptist association has been secured for this city next year.

PERSONAL MENTION

Because of illness E. J. Humphrey left Saturday for Michigan. His physician ordered him to go to a lower altitude.

Henry Sluder who had been ill with typhoid fever for some time is again in his place in the Borst market.

George Cass who was severely hurt in a hay rack ride some time ago is able to be out again.

Katherine Guth who was injured by a fall recently is not gaining strength so rapidly as her friends would desire.

Mrs. Minium was in Pueblo Monday visiting relatives.

Dr. Winternitz moves into his new house on Colorado avenue this week.

J. C. Hawks and Mrs. Hawks of Lincoln, Neb., are in the city.

[illegible] Tyroff is down from Denver and is at the bedside of her father who is dangerously ill.

Mrs. J. H. Hamel, wife of Mr. Hamel of the American Star bakery, has joined her husband in this city.

MISS ROSA MAHAN OF BUTTE,

How, After Two Years, She Found a Remedy for Dandruff.

Miss Rosa McAhan of 211 W. Quartz street, Butte, Mont., says: Herpicide has thoroughly cleansed my scalp of dandruff which was entirely covered and it stopped my falling hair. I have tried many different preparations in the past two years but none took effect except Newbro's Herpicide. Dandruff is a germ disease and Herpicide is an infallible destroyer of the germ. Destroy the cause, you remove the effect. Kill the dandruff germ. Ask your druggist for Herpicide. It is a delightful dressing, allays itching, makes the hair soft as silk.

$12 GLENWOOD AND RETURN—$12. Rio Grande R. R., Aug. 24 and Sept. 7 to 11th inclusive.

WATERMELON DAY.

TOMORROW is Watermelon day at Rocky Ford, it being the second day of the meeting of the Arkansas Valley Fair association. The occasion is an excellent opportunity for a visit to one of the richest and most rapidly progressive sections of the state, and we trust that a large number of Colorado Springs people will go to Rocky Ford.

There are few people in this state, outside of those who have visited the lower Arkansas valley recently, who have any adequate idea of the enormous development of that country in recent years. Otero, Bent and Prowers counties are going ahead at a most astonishing rate, and one that would be considered impossible if there were not plenty of facts for proof. In Prowers county, the Great Plains and Amity system of reservoirs and ditches supplies an area of 194,000 acres and will soon be extended to cover a total of more than 300,000 acres, while another 100,000 acres are under irrigation from other canals. Otero county, of which Rocky Ford is the county seat, made the largest gain in population of any Colorado county in the last census period, having increased from 4,192 in 1890 to 11,522 in 1900. The rapid increase in population still continues and the county is growing at a rapid rate in every form of wealth.

It should not be supposed that these hundreds of thousands of acres are all planted to watermelons. The cantaloupes are a rival worthy of consideration, and the sugar beet is probably even more important to the valley than the two melon crops combined. But in addition to beets and melons the valley has a vast amount and a large variety of general agricultural products, all of which will be set forth and displayed at the fair now in progress.

People in Colorado are apt to consider themselves as much more up-to-date than the slow-moving inhabitants of the eastern states. But it is difficult for us, even, to keep up with what is going on in other parts of the state. We are too apt to limit our interests to our own town or county and to lose sight of the fact that we are a part of a great commonwealth, of whose progress we must keep ourselves informed if we desire to act for our own best interests. The time is coming before long, if it is not already here, when the eastern Arkansas valley will form one of the most valuable of recruiting grounds for our summer and winter visitors, as well as a most promising field for investment. A special effort should be made to cultivate friendly and close relations between this city and the three counties named above, and a good beginning—say rather a good step forward—in the matter may be made at Rocky Ford on Watermelon day.

THE THINGS ONE DOES NOT SEE.

ONE OF the members of the party that recently visited a reservoir site that is offered for sale to the city, is said to have remarked that he was in favor of the purchase; he could see the place where the reservoir was to be, and he could see the water in the stream, and that was enough for him.

Such a statement does not do credit to the business judgment of anyone. It illustrates very clearly the need for an expert examination of the reservoir sites and of the alleged water rights and the records affecting them, for it is precisely the things that the ordinary observer cannot see that are of vital importance to the city.

For instance, in the report of the city engineer to the council we find this statement: "I must call attention to one or two points which, from an engineer's standpoint, are of great importance. The dam is located at, seemingly, the most economical point, but is situated on what seems to be a great terminal moraine, consisting of sand and boulders. The difficulty confronting us here is to know at what depth we may be able to find bed rock. It is possible that 10 or 15 feet may give us a bed rock for the puddle trench, but it may take a much greater depth than either of the above-mentioned figures, and it is of the greatest necessity that the dam be begun on bed rock. Again, about one-fourth of a mile from the southeast end of the dam, a large flow of water comes to the surface as a spring; this spring may be an underground outlet from the reservoirs or it may be from the mountains to the southeast. If from the reservoirs, it would be quite a menace to safety unless we were able to find this channel with the puddle trench and stop the flow."

What the city engineer could not see with his trained eye was not visible to the untrained citizen. Neither one of them could tell to what depth the foundations of the dam would have to go, neither one of them was informed of the subterranean course of that spring. But the city engineer had knowledge sufficient to teach him the danger, which, "from an engineer's standpoint," is of great importance, while the untrained eye was satisfied with what it saw and the people in [illegible] the stream.

Once more, as an illustration of the things that the untrained eye does not see, we quote from a recent number of an evening daily of this city. The subject is the proposed electric railway to Pike's Peak from Clyde on the Short Line, via the Seven Lakes, the promoters of the proposition being some of the shrewdest and most careful business and professional men of this city.

"By the terms of the deal, the syndicate secures a large part of the ground formerly owned by Colonel Apponyi in the Seven Lakes district, together with a number of reservoir sites, water rights, and a power site with a fall of 1,500 feet, a few hundred feet below the ground laid off by the city engineer as a dam site for the proposed Seven Lakes reservoir. At this point the current for operating the road will be generated. According to one of the members of the syndicate it was the company's intention in purchasing these lands from Colonel Apponyi primarily to secure an easy grade for the proposed road, and secondarily to acquire a power site. The syndicate characterizes as absurd the remark that they have purchased any of the water rights or grounds in this locality with the ultimate intention of forcing the city to purchase them in case it was decided to build the Seven Lakes reservoir."

It would appear to be good policy for the city to secure some more definite information about these "reservoir sites, water rights, and power site with a fall of 1,500 feet," before venturing to ask the approval of the taxpayers for a bond issue of several hundred thousand dollars. The taxpayers will demand something more than an anonymous interview with "one of the syndicate" before feeling assured that no ground or water rights are being held by anyone with the ultimate intention of forcing the city to purchase them in case the Seven Lakes reservoir is built, and that these things for which good business men are paying good money will not interfere with the city's storage plans.

And if there is a "manifest absurdity" in such an idea, is it not that the syndicate would sell its rights to water for power and storage purposes at any price the city could afford to pay?

Expert opinion comes high, but in such matters as these it is the only kind that is to be depended upon. The methods approved by business men of large experience should be the ones that are followed in public affairs. The council has no right to make any bargain until it knows what it is getting and the taxpayers will certainly refuse to ratify any deal that will not stand expert investigation and the widest publicity.

A GOOD ADDRESS.

ONE OF the best Labor day speeches given anywhere in the county, east or west, was that of Rev. E. Evans Carrington in this city. Mr. Carrington is well known and has a record as a consistent and steadfast friend of organized labor, and his address is likely to receive the more consideration on this account.

The central topic of his speech was that both capital and labor are under mutual obligations to each other, and that the object of both in their dealings and negotiations should be industrial peace and not industrial war.

In the discussion of the various phases of the problem of labor (whatever our point of view), it should be our steadfast purpose to create a healthy public sentiment in the interest of the common weal. The true reformer is not a partisan in the strict sense of the word, for no one will claim that all the saints are in one camp and all the sinners in the other.

The history of industrial progress is a record of many foolish things as well as wise things done by both capital and labor. Yet out of the folly fraught with bitter experience and untold misery and financial loss, has come to both parties a larger vision; and I think a growing sense of mutual obligation is observable the world over. The interests of labor and capital alike are the interests of peace; and no nobler service can be rendered humanity than that which promotes the permanency of industrial peace.

The power and necessity of organizations in each is admitted by both, and, if properly used according to the Golden Rule, each party will be established in its own rights, resulting in widespread prosperity to the people at large.

But there is the rub for how few there are who can safely be trusted with the exercise of giant power. "Much wants more," and power creates an appetite for itself. It is a common experience that he who is conscious of his superior strength exercises it with but little regard for the rights of those with whom he has to do. In other words, advantage is taken of the opportunity to profit by the dependence of another and this applies equally to organizations and individuals, to capital and labor. It has always seemed to me that capital could afford to be generous, but generosity in its deepest sense is not the distinguishing characteristic of even twentieth century civilization.

We have reached a point when great wisdom and moderation are essential; when each should try to stand in the place of the other, and when reasonable concessions should be mutual.

* * * * * * *

Organized labor will always enjoy the respect and confidence of thinking people when it shows itself ready to recognize the difficulties, and, as is sometimes the case, the embarrassing circumstances by which employers may be surrounded. Nothing but arbitrariness born of inconsiderate selfishness can prevent the steady growth of public sentiment in vindication of the just rights of labor.

If the spirit of these noble words could be embodied as a part of the principles of every corporation as well as of every labor union it would go far towards making strikes unnecessary and would tend immeasurably towards a settlement of one of the most difficult problems of our present civilization.

FILIPINO PROGRESS.

THE PROGRESS being made in the Philippines and the principles according to which the American commissioners are proceeding in their work are well set forth in the dispatch from Manila that bears date of September 2. It describes the inauguration of Dr. Pardo de Tavera and Benito Legarda as members of the commission, the third Filipino member, Jose Luzariaga, being prevented from attendance by illness.

The significance of this event appears to be fully realized both by the Americans and the Filipinos in the islands. Civil Governor Taft said that the ceremony does not fully complete the government the president intends forming but sufficient has been done to show the nature of the policy to be followed. Municipal governments have been generally formed of a substantially autonomous character. Their officers are entirely native. The provincial governments are partly American and partly Filipino. Now the Philippine commission is partly American and partly Filipino. It forms a [illegible] government in which the native element will be able to voice the desires of the people, their local aspirations and necessities and give the Filipinos an example of American institutions and the customs and laws prevailing in the United States.

Dr. de Tavera, one of the new commissioners, said that hardly had the people begun to appreciate the work of pacification than they were accorded the institutions of peace. The enemy of the evening before began the next morning to aid their adversaries to build roads and houses and introducing acts of peace. The day was not far distant when the Filipinos would enter a legislative body for the islands elected by the people. The conditions prevent the elections at present. The Filipinos consider today to be solemn and grand, because it is the first time they have been given part in the supreme government. They believe that the day is coming when the American Constitution as a whole, without amputations, will be planted here, as the flag now is.

Such events and such words are most satisfactory as indicating the progress that is being made in gaining the good will of the Filipinos and the prospects for the future in the islands.

OPEN PARLIAMENT.

What the Court Will Decide.

To the Editor of the Gazette:

The extract you print in the Gazette of this morning taken from the St. Joseph Gazette-Herald under the heading "What the Court Will Decide," so systematically suppresses the most important of the facts of the official record that it ought not to be allowed to pass unchallenged. I am not a champion of either Admiral Sampson or Admiral Schley—only a plain citizen who wants to do exact justice to both and without favoritism or politics.

The article you quote has it that "the scope of the investigation is unrestricted," referring to the naval court soon to convene. On the contrary the field of inquiry is very much restricted. That court is called at Admiral Schley's request for the sole purpose of investigating his conduct as an officer. It does not apply at all to the main question at issue between Admiral Sampson and Admiral Schley—the question who was in command of our fleet at the battle of Santiago.

At that battle, as is well known, Admiral Schley issued a general order to the whole fleet as if he were in command and afterward claimed that he was in command and entitled to the prize money and credit due to that position. This matter has been hotly debated by both sides. But we now have no need to go into the argument, for this important question has been decided by the only authority that could legally decide it—the United States district court for the southern district of New York, sitting as a prize court. All the facts were brought before this court in connection with the suits that established the capture of the Spanish vessels and distributed the prize money to each according to his rank as shown by the official records of the navy. The court decided that Admiral Sampson was in command of the fleet and that Admiral Schley was in command of a section of the fleet, and it distributed the prize money accordingly. No appeal has been taken from the judgment of the court. Until such appeal is made and the finding of the court is reversed, this judgment stands as the only authoritative decision of the disputed question. This judgment will stand as the basis of the verdict of history, when all the excited talk of interested partisans shall be unheard and forgotten. Yet in the face of this judgment the partisans of Admiral Schley continue to assert that he was in chief command at Santiago, that he destroyed Cervera's fleet, etc. They, therefore, systematically ignore the decision of the prize court. Is it not a ridiculous claim that a subordinate can destroy a Spanish fleet with a fleet that is under the command of another?

The same partisans also suppress the most important of the questions relating to the conduct of the battle under what orders was the battle fought? The official record shows that when Admiral Sampson took command of the blockading fleet a month before the fight, he issued typewritten orders that if the Spanish ships came out all commanders were immediately to close with the enemy. This was evidently caused by the fact that Santiago harbor was so narrow that the Spanish ships could only come out one after another, hence there would be no opportunity for squadron tactics. These were the orders under which the battle was fought. The orders made it what it actually was, a captain's battle.

But, the writer of the extract you quote assumes that Admiral Schley was in actual if not nominal command. Legally there can be no such distinction, but if there were, what are the facts?

The official record shows that when the first Spanish ship was seen coming out, Admiral Schley raised a signal for all vessels to close with the enemy. This only repeated the previous orders of Admiral Sampson, and which each commander of a vessel had had for a month. Was there any need of Admiral Schley's issuing the order? No, for no commander was waiting for orders. If the Spaniards came out he would not wait an instant, and he knew exactly what to do. Only one captain saw this order and acknowledged its receipt—Captain Evans of the Iowa, and he did nothing he would not have been under orders to do if Admiral Schley's order had never been issued. Did this signal of Admiral Schley let the other commanders know the Spaniards were coming out? No, for the records show that the first Spanish ship was seen by the watch on all our vessels practically at the same instant. What, then, was Admiral Schley's part in the fight? He was senior officer on the Brooklyn and his conduct as such will come before the naval court soon to convene. Except as to the Brooklyn, he did not influence the conduct of any vessel of the fleet. All the other commanders would have fought under the same orders and would have done just as they did if Admiral Schley had been a thousand miles away. In other words, he was no more in actual command of the fleet than the court decided he was in nominal command.

When will this controversy end? Not until Admiral Schley and his excited friends cease to claim he was commander whereas he was only a subordinate—pretensions which the United States district court has completely knocked the bottom out of. I cheerfully award him the praise of having fought the Brooklyn, and that is glory enough, whether that "loop" was a tactical mistake or not. We common folks do not believe it was due to cowardice. We offset the prejudiced Maclay against the chorus of Schley newspapers which for three years have almost daily insinuated where they did not assert that Sampson started for Sibony in order to get out of the fight, and when at last somebody attacks their favorite in their own style, they suddenly get excited and cry persecution. It was Admiral Schley or perhaps his friends for him, who began all this controversy by making a claim which has been decided against him by the prize court. The only consistent thing for him to do is to appeal from that decision or else to forever keep silence about his claim to have been in supreme command. He will then take his place where he belongs along with the other subordinate commanders. There could not be any one hero of a captain's battle where all were heroes, and each did the best he could. If there was such a hero I believe it was Captain Clark of the Oregon, but if anybody believes it was Admiral Schley, very well, we have no need to quarrel over such matters. [illegible] limits to usurp the command of his superior and to get the prize money and credit due to the supreme command, that my sense of justice is aroused.

Mr. Editor, the people have far more need to look at what the United States district court has already decided than at anything the naval court may hereafter decide.

Observer.

The Sailor's Harvest

A captain of a yacht like the Aphrodite, says Lawrence Perry in a careful article about the most expensive of modern luxuries, receives about $200 a month, the mates between $75 and $100. Her seamen receive $30 a month, and so do the firemen and oilers. The chief cook is paid at least $50, and his three assistants $30, while the head steward, whose duty it is to look after the quantity and quality of the supplies, to attend to guests and to see that everything runs smoothly, is cheap at $100 or $125 each month. It costs about 50 cents a day, on an average, to feed each of the 60 men on the Aphrodite. Then take the cost of engineers' and mates' stores, the maintenance of the cabin and wine lockers, the various entertainments and you find that it costs not less than $600 a month to run her; say $10,000 a year. Such a figure was cited by a person who is in a position to know.

Judge Cunningham will hear motions next Saturday morning.

On account of the large number of cases in Teller county civil and criminal which must first be disposed of Judge Cunningham did not set down today the civil cases for this term but will call the civil docket at a later date of which early announcement will be made.

In the county court Judge Hubbard called the docket which was unusually heavy and set the cases for trial. The docket was so long that the clerk was unable to get it up in form yesterday.

A suit filed in the county court yesterday is entitled George M Houston vs E G Coray. It is a suit to recover $459 21, alleged to be due on a promissory note together with $50 attorney's fees.

Proceedings in the civil division of the district court yesterday afternoon were as follows:

Patterson vs Dashwood et al motion for a new trial denied. Defendants took exceptions and gave notice of an appeal to the court of appeals.

Johnson vs Kaiser motion for a rehearing continued.

Kurle vs Stiff et al motion for a new trial continued to Sept 10.

Johnson vs Johnson dismissed at plaintiff's cost and motion.

Thompson vs K. C. K. M and M Co on motion of defendants case dismissed at plaintiff's cost.

THOMAS FUNERAL

SERVICES YESTERDAY AT FIRST METHODIST CHURCH

The Dead Youth's School Comrades and Friends Pay Tribute to — to His Memory —

The First Methodist church was crowded yesterday afternoon with friends of Meade Thomas who came to pay their last sad tribute to their young friend whose death only a few days ago was such a shock to them.

His school comrades the young men and women with whom he had attended school at the High school and later on at Boulder where he attended the State university no grief has been as keen as that of his death. To his fellows he was upright character and many times endeared himself to them. To know him was to respect and admire him for he was one of the most popular young men in the city. He was only ... and since about 1 he has lived here. At school he was always foremost in his class winning honors on the athletic field as well as by his literary attainments.

The primary cause of his death was overwork at the State university. He was studying hard and in his ambition his health gave way.

Dr Wilcox preached a splendid sermon at the church. He paid a tender tribute to the deceased and his words of comfort to the sad mother and sister and the sorrowing relatives eased their bereavement.

The choir composed of Miss Hart Miss Waugh Walter Rybee and Loring Lennox sang Asleep in Jesus and as the funeral started the tender refrain Abide With Me was sung.

The pall bearers were Will Cheley Herbert Dwight Roy Goddard Carl Pumb Fred Fairley and Anson Spinney. They were all High school classmates and graduates of the year 98 the year in which Meade graduated. The floral offerings that covered the casket were all loving tokens symbolical of the young life whose existence here was so brief.

RAINFALL

RECENT RECORDS BROKEN BY AUGUST PRECIPITATION

Streams in This City Have Been Swollen and Much Damage Is the Result.

The rainfall for August was 5 31 inches or more than a quarter of the usual annual precipitation. It is the greatest amount of water which has fallen during August for years. All the streams about the city are swollen and many ditches have gone over their banks washing out the slides and causing a great deal of damage. The city ditch which is taken out of the Fountain west of Colorado City has been filled up for about 500 feet by soil washed down from the hillsides.

Near Rosevell about 50 feet of flume was carried out the other day. The street department has a force of men at work on the ditch but repairs will not be finished before the end of the week. This is the ditch which provides the irrigating water used in the city.

WINTER PLANS FOR THE Y. M. C. A.

The coming winter of the Y M C A will be one of the most interesting and instructive in the history of the local organization. A splendid course of practical talks has been outlined for the winter, to be delivered by men foremost in their special lines. Some of the topics to be discussed are How a Newspaper Is Made Hot Gold is Extracted and Refined subjects on photography steel and other practical topics.

At a meeting of the board of directors yesterday reports from the canvassing for funds for the new building were received.

Plans for the superstructure will be completed in about 10 days when the bids will be received.

The first session of the congress will begin Oct 7 Carl Schuyler is speaker for this year.

INSTITUTE OPENS ITS DOORS TODAY

The State Institute for the Deaf and Blind will begin its school year tomorrow. The children have been arriving from all parts of the state and from Idaho. Miss Permelia French state superintendent of schools of Idaho will bring the children from that state today. Last year the attendance at the institute was 150 and this year there will be quite an increase.

The grounds of the institute are in excellent shape and the dormitories and recitation and study rooms have been prepared to receive the pupils. Last year the school was crowded and if the increase this year is heavy there will be some discomfort in accommodating the children.

HE PREACHES TO CHILDREN

Children's evangelist Lewis preached an instructive sermon last evening at the First Cumberland Presbyterian church. He used an umbrella to illustrate his subject which was the Lord as a Sun and Shield. His sermons while directed to children are quite as interesting and instructive to the older people.

The services in the afternoon are ... others who have the care of children. Every day there have been several who have called upon Mr Lewis seeking advice concerning their children.

CHECKING UP REPORT OF CEMETERY SHORTAGE

Will Waltman assistant city engineer yesterday began the work of checking up the cemetery shortage reports of Expert Krause by a survey of the cemetery. He found the task was much greater than the cemetery committee of the city council had supposed and the work will be continued until the committee again orders the survey made.

STEAM ROLLER

CITY ENGINEER HAS PLANS FOR ONE COSTING $4 000

He Says the Machine Is a Necessity if the Streets Are to Be Kept in Good Condition.

The heavy rains have been playing havoc with the streets of the city and the street commissioner is burdened with work. Many days will be required to put the city streets and roughfares in good condition again.

Complaints have been numerous at the city clerk's office and the officers state that if they are expected to keep the streets in any kind of shape there must be more equipment provided. A steam roller is very badly needed to keep heavy rains washed all the loose soil from the streets making ruts and holes. If more dirt is thrown on these places it is worked out by the constant traffic before it can be compacted.

The city engineer has been looking into the matter of steam rollers lately and he has drawings of one which he thinks is just the thing for this city. It is a 33 000 pound machine furnishing a roller 5 feet in diameter and 5 feet in width covering 66 inches in width. The roller is equipped with four and one half inch spikes which can be raised when the roller is used. These plow up the street and then when they are removed the roller rolls the ground smooth and hard again.

The roller will cost $4 000. This is a large sum for the city to spend at the present time but the engineers believe it is a necessary expense if the streets are to be kept in condition.

ROYAL NEIGHBORS WILL GIVE A DANCE

Golden Rod camp No 2559 Royal Neighbors will give an entertainment and dance in the Woodmen hall in the old Postoffice building this evening. The ladies have prepared an interesting programme consisting of speeches recitations music and graphophone pieces for the early part of the evening after which an interesting program of dances will be given. Excellent music has been provided for the occasion. The price of admission to the entertainment is 25 cents. The proceeds will go to the Royal Neighbors to assist them in providing robes and the necessary paraphernalia for their camp.

A general invitation is extended to the Modern Woodmen and their friends and to the public in general. The Royal Neighbors are growing rapidly and doing excellent work in Colorado Springs.

JONES AND WELLINGTON PLEADED GUILTY

Jones & Wellington through Q J Wellington, one of the firm yesterday pleaded guilty to the charge of keeping liquor too close to the soda fountain. The hearing occurred in police court.

Mr Wellington explained the proximity of the liquor to the soda fountain by stating that one of the clerks had left the liquor there and had forgotten to move it. The court assessed a fine of $50 and costs against the firm. The fine was paid.

SCHOOL ELECTION IS POSTPONED

The special school election to vote on the issuance of $30 000 school bonds has been postponed. It was to have been held on Friday of this week, but it has now been postponed until Friday Oct 4. The postponement was made necessary by a mistake in the published notice of the election.

Dysentery Cured Without the Aid of a Doctor

I am just up from a hard spell of the flux (dysentery) says Mr T A. Pinner a well known merchant of Drummond Tenn I used one small bottle of Chamberlain's Colic Cholera and Diarrhoea Remedy and was cured without having a doctor I consider it the best cholera medicine in the world. There is no need of employing a doctor when this remedy is used for no doctor can prescribe a better medicine for bowel complaint in any form either for children or adults. It never fails and is pleasant to take. For sale by all druggists.

ADVERTISE IN THE..... GAZETTE

ELKTON DIVIDEND DECLARED

At the Usual Rate of Three Cents a Share—The Mine Is in an Excellent Condition—Conquering the Flow of Water.

The directors of the Elkton Consolidated company met yesterday in their offices and declared the regular quarterly dividend of the company at the old rate of 3 cents per share. The company has 2,500,000 shares outstanding, which will mean the distribution of $75,000. The dividend will be paid on the 7th inst. to stockholders of record on the 15th. When it is paid the company will have distributed a total of $1,254,687.57.

There was some talk before the meeting was held to the effect that the dividend might be increased this quarter. But the directors, with their well known business judgment, decided that it would be better to wait longer before paying out any more money. Indeed they had not even considered increasing the rate at this time.

The mine is in a fine condition, as has been published in these columns quite fully of late. The output for August is not yet known at the company's offices, but it is stated that it will be found much larger than any previous month, and the value of the ore is known to be very gratifying.

The management is gradually conquering the water in the seventh level where the valve in the bulkhead is while open. It is thought that in a few months the eighth level can be safely entered, and that no further trouble will be encountered until sinking is resumed. The recovery of the eighth level would mean the addition to the reserves and undeveloped bodies of hundreds of thousands of tons, and before a small part of that could be taken out, the water problem will have been solved.

DOCTOR DIVIDEND MAY BE PASSED

Grave Doubts Are Entertained Whether it Would Be Wise to Continue the Monthly Distribution—The Directors Withhold Information Which They Freely Gave When the Mine Was Doing Well.

There is a grave possibility that the dividend of the Doctor-Jack Pot company will not be declared at the regular monthly meeting of the directors, to be held next Monday. The directors seem to be undecided about it, and the great expense of getting at the ore bodies and handling the water is pressing heavily upon them, as they consider the advisability of paying out $29,000 a month when the mine is not earning that amount.

The condition of this mine is not described by the directors. When the company was first organized and the mine was making a record-breaking production the management was most ready to give out all the particulars of production and development. Each month the treasurer's figures were furnished to the Gazette for the benefit of its readers who happened to be interested in the mine. Now, however, nothing of a definite nature can be learned. For two months every effort has been made with the directors to obtain these figures for the production and the amount of money in the treasury, to be met only by procrastination. The directors have consulted over the matter and arrived at the conclusion that the figures are too low to give out, leaving the stockholders in ignorance of the true condition; and meantime, the stock is manipulated on the local boards by professional speculators as few other stocks have been manipulated here.

In regard to the dividend, the same silence is maintained, but in the best informed circles it is asserted that the dividend will be passed, and that if it is not, it ought to be.

During the first few months of the company's history, a marvelous production was made from an ore body which had for years been tied up in litigation; and presently after something over $200,000 had been accumulated in the treasury the shoot was exhausted and it was necessary to start work to open it from a new level. But when work to do this was started the company found that it could not open the ore on account of a great flow of water. Every effort was made to hold it back in vain, and finally, awaiting greater facilities, the work was abandoned and the pumps are not ready yet. Meantime the production was made from the old stopes and such parts of the main ore body as could be reached in winzes, and recently work was started in a rickety hoisting shaft, in the hope of opening from there a shoot of ore.

Before the mine can make a production which would warrant the payment of $29,000 a month in dividends, the bottom level must be opened and to do this is going to take time and money under the most favorable conditions in handling water and driving the long distance. The treasury reserve is not known. In addition to necessary expenses, it probably holds two or three more dividends, but should these be paid, the directors would stand the chance of again becoming tied up in getting their ore and finding themselves without money to carry on the development.

It would seem as if the stockholders were entitled to the same full statements when the mine is doing poorly as when it was doing well. The silence of the management is likely to engender exaggerated ideas as to the low ebb of the mine's output and the company's treasury rather than to create confidence in the management.

It is earnestly to be hoped that when the directors meet next Saturday they will state the condition of the mine and treasury so stockholders may know whether they are wise in passing the dividend or reckless in declaring it.

BOB LEE AND HOOSIER MINES

Former Is Said to Have Extension of Latter's Ore Shoot, Which Will Permit of an Equitable Consolidation.

The sensational advance in Bob Lee shares yesterday awakened the reports to the effect that a consolidation was to be effected between the Hoosier and Bob Lee properties, a consolidation which can be brought about now, it is said, on terms more favorable to the Bob Lee company by the discovery of location of ore in the latter company's property.

The information to hand is to the effect that the work which has been in progress by the lessees on the Hoosier has resulted in following a valuable ore shoot in one of the upper levels of the mine to the common line between the two properties, and that it is only a question of reaching this ore body before the Bob Lee can make a good production. The Hoosier mine is making a very good output of profitable ore from the upper levels.

The question of consolidation between these two properties has been mooted at different times, but owing to the fact that little encouragement has been found in the development on the Bob Lee property the Grafton company could not offer terms which were satisfactory to the Bob Lee company. A merger would be of benefit to each of the companies. The smaller one would secure the development which the Hoosier could conduct from its deep shaft, while the Grafton company would acquire a good acreage. Its holdings now are limited to one claim.

The Bob Lee company has been getting some encouraging assays in the work which it is doing along the dike in the 300-foot level, and it seems not unlikely that a good shoot of ore be developed in this place; while the developments in the Hoosier guarantee, it is stated, the development of a pay shoot in another part of the mine.

The officers, however, have no statement to make public at this time. They state that the matter is not yet in that stage where they can discuss it publicly, but from outside sources it is learned that the outlook both for ore and consolidation is much better than it formerly was, as stated above.

IDA MAY RESUMED

Its Main Shaft Is Being Put in Condition for Extensive Development Work—Bob Lee and C. C. & M.

Special to the Gazette.

Cripple Creek, Sept. 3.—The Ida May company has resumed operations in its main shaft near the summit of Raven hill, and is putting in the time at present in putting the property in shape. A five-horse power electric hoist has been installed and the company expects to do some extensive development work in the way of crosscutting and sinking.

The strength of the Bob Lee and C. C. and M. stocks today proved a matter of a good deal of speculation, as to the reason of the advance of both of these properties simultaneously. While nothing definite in regard to the Bob Lee condition can be learned, it is thought by some that the Hoosier lessees have extended their drift north into the Bob Lee territory where it is in ore. The Hoosier shaft is sunk close to the east side line of the property and the trend of the vein ought to bring it into Bob Lee ground. Development work has been going on since the first of the year, on the Bob Lee ground, and the work at present is being carried forward at the 300-foot depth. The object all along has been to touch the extension of the Hoosier body and it is not at all unlikely that the company has been successful in this work.

On the Iron King claim of the C. C. & M. Co. a streak of ore nearly a foot in width and carrying values of $20 to $24, has been opened not far below the wash, which is quite deep at this [illegible]

The extra boiler to be used in running the new hoist of the Joe Dandy has been set and the brick foundation is completed. The new 2,000-foot hoist which is to be put up is on the ground ready to be set up. This company will use the old gallows frame, which will serve its purpose very satisfactorily on account of its position with regard to the ore house.

Bannigan & Snyder leasing a block of the Gregory of the Elkton Co., on Raven hill, sent out a carload shipment of screenings and coarse rock yesterday. The ore is expected to return an average of $50 in gold to the ton.

Stark Bros. & Leppert, operating a sub-lease on the Princess E. of the Elkton company, sent out a ten-ton shipment of ore from the 75-foot depth last Saturday. While assays of as high as 13 ounces have been obtained from the screenings, the average of the shipment will probably not be over $45 in gold to the ton.

Victor, Sept. 3.—F. G. Whipp and associates, leasing a block of the Emma of the Isabella company, are saving ore in sinking the shaft which is now down to a depth of about 30 feet. The ore shoot was encountered about 10 feet below the solid formation and measures two feet in width. While some of the mineral samples as high as $145 to the ton the lessees expect to realize from three to four ounces in the shipment. A 10-ton lot will be sent out in a day or two.

The new shaft on the Orphan Gold, near the Isabella, has attained a depth of 650 feet and but little can be learned in regard to the development. It is learned from outside authority that an ore shoot of good size has been developed at a point 50 feet below the present shaft by a crosscut driven from the Isabella shaft. Stations have been cut at each 125 feet.

Smith and associates, leasing a portion of the Jack Rabbit No. 3 of the Isabella, are developing a vein at the [illegible] south trend and is supposed to traverse the Wild Horse ground. While no shipping ore has been encountered the vein matter shows improvement that greatly encourages the lessees.

Ross & Co., on another block of the Jack Rabbit, have cut a good vein at a distance of 40 feet from the 120-foot station. A streak of talc gives pay assays, but not to ship. The crosscut will be continued through the property for parallel veins.

MINING NOTES AROUND TOWN

Mr. E. E. Rittenhouse of the Dorsey Investment company, spent Labor day in camp, and stated yesterday to a representative of the Gazette that the activity there was much more noticeable than at the time of his last visit, some weeks ago. "The amount of leasing on north Bull hill," Mr. Rittenhouse said, "has increased very materially, owing to the big strike in the Wild Horse; and on the Foley spur of Gold hill I also noticed a great deal of activity, while Beacon is seething with life. Leasing in Cripple Creek goes in waves. Now it is one part of the camp, now another that attracts attention; and it seems to be toward the fall and winter that the lessees are most active, starting out in new enterprises. The prosperity of the camp impressed me very greatly and I anticipate that the showing made by the mines will testify to the increased interest which is certainly now being taken in different portions of the district."

PINNACLE GRANTS A LEASE ON FLYING CLOUD.

The directors of the Pinnacle Gold Mining company have granted a lease on the Flying Cloud claim to Patrick Moore. The lease will run for 18 months and calls for the customary royalties and work. Mr. Moore has already started work, and hopes to recover the small shoot of ore which was at one time showing in his claim, a portion of which is owned by the Pinnacle company and a portion by the Flying Cloud company. The main workings of the Pinnacle are under lease again, and ore is saved in small amounts, and occasional shipments made. The lease is from the point where the ore shoot was lost to the surface, and a great effort is being made to again find the ore. The property is being fairly well developed, but for the past few months there have been few encouraging occurrences.

TO SINK DEEPER WROCKLOFF SHAFT.

A new steam hoist is being installed over the Wrockloff shaft on the Burns of the Acacia company, and McFarland and associates will resume sinking in the shaft just as soon as the machinery is in place. The shaft is now something below 600 feet, and is to be extended to the 700-foot point where active exploration will be conducted in search of the Wrockloff shoot, which was never opened in the mine below the 300-foot level, excepting in a winze which failed to trace the shoot excepting for a short depth. The same lessees, who are operating a block of the Pharmacist property, are planning to develop that claim from their shaft as soon as it reaches the depth to which it is proposed to sink it.

RICH ORE OPENED ON SCHOOL SECTION.

On block 8 of school section 16 the La Montaigne Mining & Leasing company have opened 20 inches of ore running between $50 and $100 in gold to the ton in a winze sunk 30 feet below the 500-foot level. Ore is being saved for shipment, and it is thought that an excellent production can be made as soon as the shoot is opened from the level. In order to do this the shaft is to be put down to the 450-foot point and a level run out from there. This leasing company has the deepest workings on the section, and their success in opening good ore at depth is very encouraging to those who are at work in this part of the camp. The lessees recently refused, according to information at hand, the sum of $75,000 for their lease.

ELSMERE LESSEES OPEN THE ORE SHOOT.

The Elsmere Leasing company has just opened their shoot at a depth of 100 feet from the surface, and find it to be about 18 inches in width averaging $30 in gold to the ton. This is the same shoot which was opened up by them in an upper level and found to carry spasmodic values, and appears, at this depth, to be better in place and more promising of permanent values. Drifting is to be started immediately to prove it up. This company is operating land on the Cameron townsite, where there is a considerable amount of work being done at present. It is the intention of the lessees to sink at once for another lift on the ore if the appearance of the shoot at the present depth warrants it.

MONTROSE STOCK LISTED YESTERDAY.

The stock of the Montrose Gold Mining company was listed yesterday as a common prospect. The information which was filed with the listing committee was as follows:

Officers—President, Dr. C. P. Elder; vice president, Warren Woods; secretary, F. Woods; treasurer, H. Woods, Victor, Colo.

Transfer Office—Colorado Springs, Colo.

Capitalization—1,250,000 shares, par value, $1 each; non-assessable.

In treasury—Cash, $50; stock, 64,922 shares (not for sale.)

List of properties—Montrose, U. S. survey No. 8257, 4 042 acres, and Arizona, U. S. survey No. 8355, 4 088 acres.

Titles—All patented.

Litigation—None.

Development—Hoist and shaft house on surface; 145-foot shaft on Arizona and 60-foot shaft on Montrose. Not being worked at present. Property will be operated under lease.

Liabilities, none; production, none; dividends, none.

Stock registered with registry department, Colorado Springs Mining Stock association.

A WELL-KNOWN ALBANY MAN

Recommends Chamberlain's Colic, Cholera and Diarrhoea Remedy.

About 18 months ago Mr. W. S. Manning of Albany, N. Y., widely known in trade circles as the representative of the Albany Chemical Co., was suffering from a protracted attack of diarrhoea. "I tried Chamberlain's Colic, Cholera and Diarrhoea Remedy," he says, "and obtained immediate relief. I cheerfully recommend this medicine to those similarly afflicted." This remedy is not an astringent and for that reason no bad effects follow its use. It checks the diarrhoea by curing the disease which causes it. It never fails and is pleasant to take. For sale by all druggists.

CHEAP EXCURSION, CRIPPLE CREEK AND RETURN, SATURDAY, SEPTEMBER 7TH. $2.50 ROUND TRIP.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, Sept. 3.—The mining stock market opened today after a week of dull and quiet half days, showing some strength, giving a surprising to a few of the traders who had expected more sympathy with the eastern and foreign markets. The afternoon bore out the strength which these people made, showing a noticeable tendency to hold on the part of many holders, and the speculators took advantage of the conditions to assist in the natural declines. There were exceptions among the various properties, Bob Lee was strong, advancing on a very large amount of business, followed by circulars sent out by management advising the purchase of the shares. Elkton was strong in the morning, but slipped back to $1.73½ in the afternoon. Isabella declined very rapidly in the morning, due to the announcement that the dividend would not be paid this month, but rallied fractionally to 54½ in the afternoon. The feature of the day's trading was the advance in Bob Lee shares to 6¼, explained in mining circles by an improvement in the outlook at the mine. An article on Bob Lee will be found on another page. Olive Branch went off quite noticeably to 2¼, and Eclipse was weak at 11¼. Gold Dollar was very strong at 22 in the morning, but sold at 21¾ in the afternoon, an example of the weakness which is due as a result of interior conditions rather than to the showing on the property.

HOW LONG IS YOUR LEASE OF LIFE?

LIFE INSURANCE

EVERY READER OF THE GAZETTE MAY HAVE A

$1,000 INSURANCE POLICY WITHOUT COST

No man is too poor to leave an estate if he carries insurance.—Under this plan a policy costs you nothing, so every newspaper reader may leave a legacy of $1000 to his family. Take quick advantage of this proposition, it will ease your mind from the worry of your family's future.

Death Comes at Unexpected Moments
Fatal Accidents Happen Every Day
...Prepare For The Worst...

Make provision for the family if death should claim you unexpectedly. The necessity for it may not come for years, we all hope it won't but if it does, be prepared. If it does not your money's not wasted, the policy costs you nothing. Sudden death comes to many. It may be your turn next; who knows?

Read About the POLICY You May Get FREE

Surplus and Reserves for the Protection of Policy Holders, July 1, 1900, $2,216,340.09.

MARYLAND CASUALTY CO.'S "Puritan" Accident Policy

Principal Sum, $1,000. Weekly Indemnity, $5.00.

$1,000 DEATH INDEMNITY

For loss of life occurring within ten days from date of the event causing the fatal injury, the sum of One Thousand Dollars ($1,000), provided such injury shall have been sustained by any of the following modes, namely:

Travel and Elevator

By collision or other accident causing material damage to a passenger elevator, a surface or elevated railroad or street car, steamboat, or other public conveyance provided by a common carrier for passenger service only, within which the Assured may be riding at the time of such accident in a place regularly provided for the transportation of passengers; or,

Burning Buildings

By the burning of a dwelling, hotel, theater, store or barn in which the Assured may be burned by fire or suffocated by smoke, but this shall not apply to or cover the Assured in the performance of duty as a paid or volunteer fireman; or

By Sunstroke or by Freezing or Anaesthetics

As the result of any anesthetic when administered by a duly qualified regular physician for the purpose of performing a surgical operation except that if the Assured be a female, this clause shall not apply to any operation during confinement or childbirth; or

Boiler Explosions

By the explosion of a stationary, locomotive, marine or portable boiler, when such explosion causes the destruction of such boiler; or

Runaways

By the running away of the horse or horses attached to any vehicle driven by the Assured at the time of such runaway; or

Burglary

By violence at the hands of any burglar when robbing or attempting to rob, by forcible entry, the dwelling of the Assured.

$5.00 WEEKLY INDEMNITY

The sum of Five Dollars ($5.00) per week for a period not to exceed five consecutive weeks, if the Assured shall be immediately, continuously and wholly disabled and prevented from performing each and every duty pertaining to any and every business or employment, by external injuries resulting from the following causes, namely:

Travel and Elevator

By a collision or other accident causing material damage to a passenger elevator, a surface or elevated railroad or street car, steamboat, or other public conveyance provided by a common carrier for passenger service only, within which the assured may be riding at the time of such accident in a place regularly provided for the transportation of passengers; or

Bicycles

By the accidental collision of a bicycle, ridden by the Assured with any vehicle other than a bicycle; or

Runover

If the Assured shall be accidentally run over by a cable, electric or steam railroad or street car, or locomotive, providing he is not boarding or alighting from same while it is in motion, nor attempting to do so.

This Free Policy Gives You $1,000 In Case of Death Within the Year by Accident

This Free Policy Gives You $5 a Week while temporarily injured by accident, for a term not exceeding five consecutive weeks

This Free Policy Is in a Strong, substantial company with surplus and reserves of $2,216,340.09.

How To Get a $1,000 Insurance Policy Free

You take the Gazette now and pay sixty cents a month for it. In a year you pay $7.20 for The Gazette or some other paper. To get this policy you have simply to pay your subscription to the Gazette in advance instead of month by month, and your Gazette costs twenty cents less when paying yearly than when paying monthly. The Gazette pays the premium on your insurance. You pay for The Gazette for six months or one year and receive from The Maryland Casualty Company a $1,000 policy with a receipt for the year's premiums, that's all, except that you must be over 16 and under 65.

APPLICATION BLANK, FILL OUT AND SIGN.

Subscribers must be over 16 and under 65 years of age to avail themselves of this offer. Fill out this blank, write name and address plainly, and the policy will be delivered within a few days. Applicants must remit $3.75 for six months subscription and $7.00 for one year's subscription with this application, for which we will deliver The Daily and Sunday Gazette from the date of signing the application.

This policy does not insure any person who is either partially or wholly blind, deaf, crippled, paralyzed, insane, or subject to epilepsy, fits, sleep walking or vertigo.

This policy does not cover injuries, whether fatal or non-fatal, sustained by any railroad employe (other than executive officers and office force), while on duty, nor injuries, whether fatal or non-fatal, caused or contributed to by disease, voluntary exposure to unnecessary danger, or violation of law on the part of the Assured; nor injuries, whether fatal or non-fatal, sustained by professional bicycle riders, or by any bicycle rider while engaged in racing, or by any bicycle rider while engaged in police patrol or messenger service; nor injuries received by the Assured while intoxicated or under the influence of any drug, except as provided under the head of Anaesthetics; nor disappearance.

Any Subscriber to the Gazette, New or Old

may take advantage of this proposition. Just pay $7.00 for the Gazette a year in advance or $3.75 for six months in advance, and you get both the paper and the Insurance Policy. If you don't already take the Gazette regularly begin it now. It's cheaper to take it by carrier than to buy it on the street, and you're sure of having it every day. There is no better newspaper in all of Colorado than the Gazette. No other Colorado paper is so widely quoted as the Gazette. No Colorado paper gives as much news as the Gazette. You may not agree with the Gazette politically, but you'll like and respect the fairness and strength of its policy. You'll appreciate the reliability of its news, and the absolute impartiality with which it is handled. You'll learn more of the resources of Colorado, and the opportunities of Colorado Springs through the Gazette than through any other Colorado paper.

THE GAZETTE STANDS FOR

The substantial promotion of Colorado's interests; the growth and upbuilding of Colorado Springs; honesty, economy and equality in our governmental institutions; reliability, fair play and purity in its news. The Gazette is more widely read than any other Colorado Springs paper. It is adding readers and admirers every day. Having for its aim the highest possible standard of intellectual, moral and news worth it day by day grows constantly better and greater. It costs the same as inferior newspapers and gives you

LEGAL NOTICES

NOTICE TO CLAIMANTS.

Notice is hereby given that a meeting of the board of directors of school district Number 11, El Paso county, Colorado, will be held at the office of the board of education on the 16th day of September at 8 o'clock p. m., at which time the first claim of Danevik & Currie, as contractors for the construction of the Pikeview school in said district, and the final claim of A. C. Hansood as contractor for repair on High school, in said district, will be made and full payment made thereunder for work and labor done and materials furnished, prior to the 4th day of Sept. 1901, and that claimants to whom it is claimed sums are owing for labor or materials may file with the undersigned their claims on or before the day of said meeting.

Secretary School District No. 11, El Paso County, Colorado.
First publication Sept. 4, 1901.
Last publication Sept. 11, 1901.

NOTICE OF DEFERRED ANNUAL MEETING OF THE STOCKHOLDERS OF THE MIDWAY GOLD MINING COMPANY.

Notice is hereby given that the deferred annual meeting of the stockholders of the Midway Gold Mining Company will be held at the office of the company, No. 25 East Pike's Peak avenue, in the city of Colorado Springs, county of El Paso, state of Colorado, on Saturday, August 31, A. D. 1901, at the hour of 4 o'clock p. m., for the purpose of electing directors for the ensuing year and for the transaction of such other business as may properly come before the meeting.

The books for the transfer of stock will close at 12 o'clock noon on Monday, August 26, 1901, and will reopen after the adjournment of the meeting.

This call is issued pursuant to an order of the board of directors of the company, made and entered on Tuesday, July 30, A. D. 1901. J. R. McKinnie, President.
Attest: R. P. Davis, Secretary.

REDUCED RATES AND SPECIAL TRAIN

To National Encampment, G. A. R.

The Great Rock Island Route will sell tickets to Cleveland, O., and return, for the Grand Army meeting, at greatly reduced rates. Tickets will be on sale at points west of the Missouri river September 7 to 10 inclusive, except Oklahoma and Indian Territory, where selling dates will be September 7 and 8. Return limit September 15, except that extension of limit to leave Cleveland, up to and including October 5, 1901, may be arranged by depositing tickets with joint agent at Cleveland, and payment of small fee. Comrades of the "Rank and File" have selected the Great Rock Island route and Lake Shore & Michigan Southern railway for a special through train to Cleveland, which will leave Kansas and Oklahoma Sunday, September 8. Passengers on this special train will be given the privilege of going and returning via Toledo and boat or rail as they may elect. Passengers making return journey by boat will have a delightful stop of three hours at the celebrated lake resort—Put-in-Bay. Any Rock Island agent or the undersigned will give full details and arrange for sleeping car reservations. E. W. Thompson, A. G. P. A., Topeka.

WEATHER FORECAST.

Washington, Sept. 3.—Forecast for Colorado: Showers Wednesday, with cooler in western portion. Thursday generally fair; variable winds.

Satisfied people wear Ashby's spectacles.

Trunks repaired. Wise, 14 Pike's Peak.

Piano moving a specialty. The Colorado Springs Transfer Co., 12 Pike's Peak.

LODGE MEETING.—Tejon lodge, No. 104, A. N. A. M., meets tonight. Stated communication. Visitors invited.

RUMMAGE SALE.—Articles for the Y. W. C. A. rummage sale may be sent to the barn on the new property, 327 North Weber street.

DAY NURSERY.—The regular monthly meeting of the board of managers of the Day nursery will be held at the meeting this morning at 10 o'clock.

DIED.—Last Sunday, at La Veta, Colo., Mrs. Danks, wife of William Danks, and sister to Mrs. Sadie Danks, and Mrs. E. Lowther of Colorado Springs.

C. E. SOCIAL.—The September social of the C. E. society of the First Congregational church will be held Thursday evening at the home of Miss Rosita Kellogg, 1415 South Tejon street.

ALL-DAY MEETING.—An all-day meeting of the Baptist Woman's Missionary circles of this city will be held in the Baptist church at Colorado City Thursday. The church is at the corner of Fourth street and Lincoln avenue. A good attendance is greatly desired.

K. OF P. MEETING.—Myrtle lodge, No. 34, K. of P., will meet this evening in regular session in their hall, third floor DeGraff block. There will be work in the Page rank. All members are requested to be present and all visiting knights are cordially invited.

TOOK HIM BACK.—Sheriff C. R. Strong of Tecumseh, Neb., arrived here yesterday and left yesterday with O. E. Mason, who is wanted in Nebraska on a charge of embezzlement. It is said that Mason appropriated to his own use money which belonged to a fraternal society of which he was treasurer.

DEATH OF FRED PROBST.—Fred Probst of Hampton, Va., died Monday afternoon at 727 North Spruce street. The cause of death was pulmonary complications. The deceased leaves a wife and child, who are now in the city. The funeral will be held today at 10 o'clock from Hallet & Baker's undertaking parlors. The Elks, of which Mr. Probst was a member, will conduct the services.

Madam Fraser Returns Next Wee

After a months sojourn in the eastern fashion centers, studying the late styles, Madam Fraser returns better prepared to satisfy her patrons than ever before. Along with this announcement we wish to mention our Silks and Dress Goods. Here you find the latest and most attractive ideas of the designer. Colors are beautifully blended into charming novelties. You have not seen the best until you have visited us.

New Cloths

Our gathering of tailor cloths are unusually attractive this season. Your nek suit or skirt will certainly be attractive if made from these. In black we are showing full assortments of cheviots, cheviot serges, granites, broadcloths and venetians. Covert cloths in grey and tan, extra heavy skirtings for walking skirts, venetians and broadcloths in all colors.

New Embroidered Henriettas, Embroidered Flannels, French Flannels, Outing Flannels, Wrapper Fleece line.

Three Items Of Interest

Special lot of stylish silk, slightly soiled and faded—$10.50 to $15.00 regularly—a decided snap.

Broken lot of summer wrappers, house dresses in light colors on sale this week at 75c.

All our pretty Brilliantine hair skirts. Some with flounces. Now selling at. Were $10 to $12.50; now.

Floor Coverings

Perhaps you had considered straw matting only in the nature of a summer floor covering—never added a few rugs here and there. Here is a splendid chance to find out what comfort there is in a bright, cheerful pattern of matting. These for cleanliness:

10 patterns fancy Japan mattings, cotton warp, at, yard	30c
5 patterns rice straw matting with inlaid figure at, yard	55c

Underwear Notes

An odd lot of children's white wool vests at 50c. The proper thing for fall. 50c kind now, per garment

Knit corset covers, called by some spencers, in cotton, lisle and wool. From 25c to

It's simply following destiny to buy underwear—this fall especially. Preparations have been and lines are longer and more varied. Prices a charm.

A few pieces of hemmed pillow muslin left made up in a short while. Sold regularly for 12½c yard, now, yard

Corsets Must Go

Two kinds offered at quick clearing reductions. In P. D.'s we have style 320, a $2.75 corset, in white and drab, also style 375 in white or 4 in black. In Red Fern we offer a number of styles that sold from $2.75 to $5.00 white and black. All go this week for $1.50
